

Develop Business Partnering relationships using CAMM NET's Planholder's List Report

OCTA's CAMM NET Planholder's List Report solution makes it easy for Prime and Subcontractors to connect and develop partnering relationships for OCTA projects.

All companies downloading formal Invitation for Bids or Request for Proposals packages are required to complete a brief survey. The survey asks if you are planning on participating in submitting a bid or proposal as a prime or a subcontractor. Depending on the answer, you are provided an opportunity to indicate the services you either need or can provide and your contact information.

Vendors can also choose to receive update emails daily notifying them of any changes to the Planholder's List Report.
