NOTICE OF REQUEST FOR PROPOSALS (RFP)

RFP 1-3408: “BUS STOP MAINTENANCE PROGRAM”

TO: ALL OFFERORS

FROM: ORANGE COUNTY TRANSPORTATION AUTHORITY

The Orange County Transportation Authority (Authority) invites proposals from qualified contractors to provide bus stop maintenance. The budget for this project is \$1,534,578 for a three-year initial term.

Proposals must be submitted to the Authority at or before 2:00 p.m. on July 6, 2021.

Proposals must be submitted electronically through the following URL link: <https://www.octa.net/secure/UploadMyFile.aspx> at or before 2:00 p.m. on July 6, 2021. Select “RFP 1-3408” from the drop-down menu and follow the instructions as prompted.

PLEASE NOTE:

Hard copy proposal submission will not be accepted for this RFP. Proposals must be submitted electronically at the link stated above and by the date and time as indicated.

Proposals and amendments to proposals received after the date and time specified above will be returned to the Offerors unopened.

Firms interested in obtaining a copy of this RFP may do so by downloading the RFP from CAMM NET at <https://cammnet.octa.net>.

All firms interested in doing business with the Authority are required to register their business on-line at CAMM NET. The website can be found at <https://cammnet.octa.net>.

To receive all further information regarding this RFP 1-3408, firms and subcontractors must be registered on CAMM NET with at least one of the

following commodity codes for this solicitation selected as part of the vendor's on-line registration profile:

<u>Category:</u>	<u>Commodity:</u>
Maintenance Services - Facility	Janitorial - Cleaning Services
	Janitorial - Lot Sweeping
	Janitorial Services
	Trash Disposal Service
Maintenance Services - Equipment	Material Handling - Services

IN-PERSON ATTENDANCE IS NOT AVAILABLE

A pre-proposal conference will be held on June 9, 2021, at 10:00 a.m. **via a Skype Teleconference Meeting**. All prospective Offerors are encouraged to join the pre-proposal conference by calling either of the following numbers:

(714) 558-5200, 820238# (1)	English (United States)
(714) 560-5666, 820238# (1)	English (United States)

Conference ID: 820238

Callers are requested to dial in and **mute the call**.

For those who can access via a web browser, Authority will share its desktop and display the pre-proposal presentation online. For those who join by telephone, a copy of the pre-proposal conference presentation will be included in Addendum No. 1.

All prospective Offerors are encouraged to attend the pre-proposal conference.

The Authority has established July 27, 2021, as the date to conduct interviews. All prospective Offerors will be asked to keep this date available.

Offerors are encouraged to subcontract with small businesses to the maximum extent possible.

All Offerors will be required to comply with all applicable equal opportunity laws and regulations.

The award of this contract is subject to receipt of federal, state and/or local funds adequate to carry out the provisions of the proposed agreement including the identified Scope of Work.

SECTION I: INSTRUCTIONS TO OFFERORS

SECTION I. INSTRUCTIONS TO OFFERORS

A. PRE-PROPOSAL CONFERENCE

A pre-proposal conference will be held on June 9, 2021, at 10:00 a.m. **via a Skype Teleconference Meeting**. All prospective Offerors are encouraged to join the pre-proposal conference by calling either of the following numbers:

Join by phone

(714) 558-5200, 820238# (1)	English (United States)
(714) 560-5666, 820238# (1)	English (United States)

Conference ID: 820238

Callers are requested to dial in and mute the call.

For those who can access via a web browser, Authority will share its desktop and display the pre-proposal presentation online. For those who join by telephone, a copy of the pre-proposal conference presentation will be included in Addendum No. 1.

All prospective Offerors are encouraged to attend the pre-proposal conference.

B. EXAMINATION OF PROPOSAL DOCUMENTS

By submitting a proposal, Offeror represents that it has thoroughly examined and become familiar with the work required under this RFP and that it is capable of performing quality work to achieve the Authority's objectives.

C. ADDENDA

The Authority reserves the right to revise the RFP documents. Any Authority changes to the requirements will be made by written addendum to this RFP. Any written addenda issued pertaining to this RFP shall be incorporated into the terms and conditions of any resulting Agreement. The Authority will not be bound to any modifications to or deviations from the requirements set forth in this RFP as the result of oral instructions. Offerors shall acknowledge receipt of addenda in their proposals. Failure to acknowledge receipt of Addenda may cause the proposal to be deemed non-responsive to this RFP and be rejected.

D. AUTHORITY CONTACT

All communication and/or contacts with Authority staff regarding this RFP are to be directed to the following Contract Administrator:

Sue Ding
Contracts Administration and Materials Management Department
600 South Main Street
P.O. Box 14184
Orange, CA 92863-1584
Phone: 714.560.5631, Fax: 714.560.5792
Email: sding@octa.net

Commencing on the date of the issuance of this RFP and continuing until award of the contract or cancellation of this RFP, no proposer, subcontractor, lobbyist or agent hired by the proposer shall have any contact or communications regarding this RFP with any Authority's staff; member of the evaluation committee for this RFP; or any contractor or consultant involved with the procurement, other than the Contract Administrator named above or unless expressly permitted by this RFP. Contact includes face-to-face, telephone, electronic mail (e-mail) or formal written communication. Any proposer, subcontractor, lobbyist or agent hired by the proposer that engages in such prohibited communications may result in disqualification of the proposer at the sole discretion of the Authority.

E. CLARIFICATIONS

1. Examination of Documents

Should an Offeror require clarifications of this RFP, the Offeror shall notify the Authority in writing in accordance with Section E.2. below. Should it be found that the point in question is not clearly and fully set forth, the Authority will issue a written addendum clarifying the matter which will be sent to all firms registered on CAMM NET under the commodity codes specified in this RFP.

2. Submitting Requests

- a. All questions, including questions that could not be specifically answered at the pre-proposal conference must be put in writing and must be received via email to sding@octa.net by the Authority no later than 5:00 p.m., on June 17, 2021.
- b. Requests for clarifications, questions and comments must be clearly labeled, "Written Questions". The Authority is not responsible for failure to respond to a request that has not been labeled as such.

3. Authority Responses

Responses from the Authority will be posted on CAMM NET, no later than June 24, 2021. Offerors may download responses from CAMM NET at <https://cammnet.octa.net>, or request responses be sent via U.S. Mail by emailing or faxing the request to Sue Ding, Senior Contract Administrator.

To receive email notification of Authority responses when they are posted on CAMM NET, firms and subcontractor must be registered on CAMM NET with at least one of the following commodity codes for this solicitation selected as part of the vendor's on-line registration profile:

<u>Category:</u>	<u>Commodity:</u>
Maintenance Services - Facility	Janitorial - Cleaning Services
	Janitorial - Lot Sweeping
	Janitorial Services
	Trash Disposal Service
Maintenance Services - Equipment	Material Handling - Services

Inquiries received after 5:00 p.m. on June 17, 2021 will not be responded to.

F. SUBMISSION OF PROPOSALS

Offeror is responsible for ensuring third-party deliveries arrive at the time and place as indicated in this RFP.

1. Date and Time

Proposals must be submitted electronically through the following URL link: https://www.octa.net/Proposal_Upload_Link at or before 2:00 p.m. on July 6, 2021. Select "RFP 1-3408" from the drop-down menu and follow the instructions as prompted.

PLEASE NOTE:

Hard copy proposal submission will not be accepted for this RFP. Proposals must be submitted electronically at the link stated above and by the date and time as indicated.

2. Acceptance of Proposals

- a. The Authority reserves the right to accept or reject any and all proposals, or any item or part thereof, or to waive any informalities or irregularities in proposals.
- b. The Authority reserves the right to withdraw or cancel this RFP at

any time without prior notice and the Authority makes no representations that any contract will be awarded to any Offeror responding to this RFP.

- c. The Authority reserves the right to issue a new RFP for the project.
- d. The Authority reserves the right to postpone proposal openings for its own convenience.
- e. Each proposal will be received with the understanding that acceptance by the Authority of the proposal to provide the services described herein shall constitute a contract between the Offeror and Authority which shall bind the Offeror on its part to furnish and deliver at the prices given and in accordance with conditions of said accepted proposal and specifications.
- f. The Authority reserves the right to investigate the qualifications of any Offeror, and/or require additional evidence of qualifications to perform the work.
- g. Submitted proposals are not to be copyrighted.

G. PRE-CONTRACTUAL EXPENSES

The Authority shall not, in any event, be liable for any pre-contractual expenses incurred by Offeror in the preparation of its proposal. Offeror shall not include any such expenses as part of its proposal.

Pre-contractual expenses are defined as expenses incurred by Offeror in:

- 1. Preparing its proposal in response to this RFP;
- 2. Submitting that proposal to the Authority;
- 3. Negotiating with the Authority any matter related to this proposal; or
- 4. Any other expenses incurred by Offeror prior to date of award, if any, of the Agreement.

H. JOINT OFFERS

Where two or more firms desire to submit a single proposal in response to this RFP, they should do so on a prime-subcontractor basis rather than as a joint venture. The Authority intends to contract with a single firm and not with multiple firms doing business as a joint venture.

I. TAXES

Offerors' proposals are subject to State and Local sales taxes. However, the Authority is exempt from the payment of Federal Excise and Transportation Taxes.

Offeror is responsible for payment of all taxes for any goods, services, processes and operations incidental to or involved in the contract.

J. PROTEST PROCEDURES

The Authority has on file a set of written protest procedures applicable to this solicitation that may be obtained by contacting the Contract Administrator responsible for this procurement. Any protests filed by an Offeror in connection with this RFP must be submitted in accordance with the Authority's written procedures.

K. CONTRACT TYPE

It is anticipated that the Agreement resulting from this solicitation, if awarded, will be based on firm-fixed service fees to perform monthly preventative maintenance service and other work as needed, for a three-year initial term with two, two-year option terms.

L. CONFLICT OF INTEREST

All Offerors responding to this RFP must avoid organizational conflicts of interest which would restrict full and open competition in this procurement. An organizational conflict of interest means that due to other activities, relationships or contracts, an Offeror is unable, or potentially unable to render impartial assistance or advice to the Authority; an Offeror's objectivity in performing the work identified in the Scope of Work is or might be otherwise impaired; or an Offeror has an unfair competitive advantage. Conflict of Interest issues must be fully disclosed in the Offeror's proposal.

All Offerors must disclose in their proposal and immediately throughout the course of the evaluation process if they have hired or retained an advocate to lobby Authority staff or the Board of Directors on their behalf.

Offerors hired to perform services for the Authority are prohibited from concurrently acting as an advocate for another firm who is competing for a contract with the Authority, either as a prime or subcontractor.

M. CODE OF CONDUCT

All Offerors agree to comply with the Authority's Code of Conduct as it relates to Third-Party contracts which is hereby referenced and by this reference is incorporated herein. All Offerors agree to include these requirements in all of its subcontracts.

SECTION II: PROPOSAL CONTENT

SECTION II. PROPOSAL CONTENT

A. PROPOSAL FORMAT AND CONTENT

1. Format

Proposals should be typed with a standard 12-point font, double-spaced. Proposals should not include any unnecessarily elaborate or promotional materials. Proposals should not exceed fifty (50) pages in length, excluding any appendices, cover letters, resumes, or forms.

2. Letter of Transmittal

The Letter of Transmittal shall be addressed to Sue Ding, Sr. Contract Administrator and must, at a minimum, contain the following:

- a. Identification of Offeror that will have contractual responsibility with the Authority. Identification shall include legal name of company, corporate address, telephone and fax number, and email address. Include name, title, address, email address, and telephone number of the contact person identified during period of proposal evaluation.
- b. Identification of all proposed subcontractors including legal name of company, contact person's name and address, phone number and fax number, and email address; relationship between Offeror and subcontractors, if applicable.
- c. Acknowledgement of receipt of all RFP addenda, if any.
- d. A statement to the effect that the proposal shall remain valid for a period of not less than 120 days from the date of submittal.
- e. Signature of a person authorized to bind Offeror to the terms of the proposal.
- f. Signed statement attesting that all information submitted with the proposal is true and correct.

3. Technical Proposal

a. Qualifications, Related Experience and References of Offeror

This section of the proposal should establish the ability of Offeror to satisfactorily perform the required work by reasons of: experience in performing work of a similar nature; demonstrated competence in the services to be provided; strength and stability of the firm; staffing

capability; work load; record of meeting schedules on similar projects; and supportive client references.

Offeror to:

- (1) Provide a brief profile of the firm, including the types of services offered; the year founded; form of the organization (corporation, partnership, sole proprietorship); number, size and location of offices; and number of employees.
- (2) Provide a general description of the firm's financial condition and identify any conditions (e.g., bankruptcy, pending litigation, planned office closures, impending merger) that may impede Offeror's ability to complete the project.
- (3) Describe the firm's experience in performing work of a similar nature to that solicited in this RFP, and highlight the participation in such work by the key personnel proposed for assignment to this project. Describe experience in working with the various government agencies identified in this RFP.
- (4) Possess a current "C-61 Limited Specialty" license, with a D-42 classification, issued by the Contractors State License Board, for the entire length of the contract.
- (5) Have a minimum of three (3) years of direct experience working with local, county, state, and/or federal agencies.
- (6) Have a minimum of three (3) years of continuous experience maintaining, installing, relocating, and removing street signs and posts, along with extensive experience using core drills, pneumatic tools, and various other power hand tools.
- (7) Have a minimum of three (3) years of experience preparing and painting various surfaces, such as concrete or asphalt.
- (8) Have a minimum three (3) years of experience using current standards and practices for trimming and pruning trees and shrubbery.
- (9) Have experience working in and around extreme traffic conditions along streets, roadways, and major arterial highways. This experience will include the following:
 - The proper placement and utilization of portable traffic diversion devices such as cones, delineators, and barricades.

- The proper placement and operation of mechanical arrow boards or other directional devices used to direct motorists in and around construction zones.
- (10) Identify subcontractors by company name, address, contact person, telephone number, email, and project function. Describe Offeror's experience working with each subcontractor.
 - (11) Identify all firms hired or retained to provide lobbying or advocating services on behalf of the Offeror by company name, address, contact person, telephone number and email address. This information is required to be provided by the Offeror immediately during the evaluation process, if a lobbyist or advocate is hired or retained.
 - (12) Provide as a minimum three (3) references for the projects cited as related experience, and furnish the name, title, address, telephone number, and email address of the person(s) at the client organization who is most knowledgeable about the work performed. Offeror may also supply references from other work not cited in this section as related experience.

b. Proposed Staffing and Project Organization

This section of the proposal should establish the method, which will be used by the Offeror to manage the project as well as identify key personnel assigned.

Offeror to:

- (1) Identify key personnel proposed to perform the work in the specified scope of work and include major areas of subcontract work. Include the person's name, current location, proposed position for this project, current assignment, level of commitment to that assignment, availability for this assignment and how long each person has been with the firm.
- (2) Furnish brief resumes (not more than two [2] pages each) for the proposed Project Manager and other key personnel that includes education, experience, and applicable professional credentials.
- (3) Include a project organization chart, which clearly delineates communication/reporting relationships among the project staff.
- (4) Include a statement that key personnel will be available to the extent proposed for the duration of the project acknowledging

that no person designated as "key" to the project shall be removed or replaced without the prior written concurrence of the Authority.

c. Work Plan

Offeror should provide a narrative, which addresses the Scope of Work, and shows Offeror's understanding of Authority's needs and requirements.

Offeror to:

- (1) Describe the approach to completing the services specified in the Scope of Work. The approach to the work plan shall be of such detail to demonstrate the Offeror's ability to accomplish the project objectives and overall schedule.
- (2) Outline sequentially the activities that would be undertaken in completing the work and specify who would perform them.
- (3) Identify methods that Offeror will use to ensure quality control as well as budget and schedule control for the project.
- (4) Identify any special issues or problems that are likely to be encountered in this project and how the Offeror would propose to address them.
- (5) Offeror is encouraged to propose enhancements or procedural or technical innovations to the Scope of Work that do not materially deviate from the objectives or required content of the project.

d. Exceptions/Deviations

State any technical and/or contractual exceptions and/or deviations from the requirements of this RFP, including the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit A) and Proposed Agreement (Exhibit C), using the form entitled "Proposal Exceptions and/or Deviations" included in this RFP. This Proposal Exceptions and/or Deviations form must be included in the original proposal submitted by the Offeror. If no technical or contractual exceptions and/or deviations are submitted as part of the original proposal, Offerors are deemed to have accepted the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit A) and Proposed Agreement (Exhibit C). Offerors will not be allowed to submit the Proposal Exceptions and/or Deviations form or any technical and/or contractual exceptions after the proposal

submittal date identified in the RFP. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

All exceptions and/or deviations will be reviewed by the Authority and will be assigned a “pass” or “fail” status. Exceptions and deviations that “pass” do not mean that the Authority has accepted the change but that it is a potential negotiable issue. Exceptions and deviations that receive a “fail” status means that the requested change is not something that the Authority would consider a potential negotiable issue. Offerors that receive a “fail” status on their exceptions and/or deviations will be notified by the Authority and will be allowed to retract the exception and/or deviation and continue in the evaluation process. Any exceptions and/or deviation that receive a “fail” status and the Offeror cannot or does not retract the requested change may result in the firm being eliminated from further evaluation.

e. Public Records Act Indemnification

Proposals received by Authority are subject to the California Public Records Act, Government Code section 6250 et seq. (the “Act”), except as otherwise provided in the Act. Proposers should familiarize themselves and exceptions thereto. In no event shall the Authority or any of its agents, representatives, contractor, directors, officers, or employees be liable to a Proposer for the disclosure of any materials or information submitted in response to the RFP. Proposers must complete and sign the Exhibit H, Public Records Act Indemnification – Proposal Documents, and submit it with the proposal. Failure to complete Exhibit H may cause the proposal to be deemed non-responsive to this RFP and may no longer continue in the evaluation process.

If a California Public Records Act request is received by Authority for the release of information identified by Proposer as propriety, trade secret, or confidential, the request will be referred to Proposer for review and consideration. If Proposer requests that the information be withheld from release, Proposer shall provide such request in writing with the legal basis under the Act for each requested withholding. Failure to notify the Authority in writing of its desire to withhold the records within three business days and/or to timely provide a legal basis for the withholding of documents, regardless of any marking or designation of such documents, shall constitute a waiver of any claims Proposer may have had related to such disclosure.

Authority will review the request, determine if the disclosure of the records is required by law, and notify Proposer of such

determination. If Authority determines that the disclosure of records is required by law, Authority will notify Proposer of such determination and provide Proposer the opportunity to seek a protective order or other appropriate legal relief to protect the records.

Proposer shall defend and hold harmless Authority from any legal action arising from such withholding, as further detailed in Exhibit H, Public Records Act Indemnification – Proposal Documents.

4. Cost and Price Proposal

As part of the cost and price proposal, the Offeror shall submit proposed pricing to provide the services described in Exhibit A, Scope of Work.

The Offeror shall complete the "Price Summary Sheet" form included with this RFP (Exhibit B), and furnish any narrative required to explain the prices quoted in the schedules. It is anticipated that the Authority will issue a time and expense-price contract specifying monthly fixed fee and fully burdened labor rates for the work.

5. Appendices

Information considered by Offeror to be pertinent to this project and which has not been specifically solicited in any of the aforementioned sections may be placed in a separate appendix section. Offerors are cautioned, however, that this does not constitute an invitation to submit large amounts of extraneous materials. Appendices should be relevant and brief.

B. FORMS

1. Campaign Contribution Disclosure Form

In conformance with the statutory requirements of the State of California Government Code Section 84308, part of the Political Reform Act and Title 2, California Code of Regulations 18438 through 18438.8, regarding campaign contributions to members of appointed Board of Directors, Offeror is required to complete and sign the Campaign Contribution Disclosure Form provided in this RFP and submit as part of the proposal.

This form **must** be completed regardless of whether a campaign contribution has been made or not and regardless of the amount of the contribution.

The prime contractor, subcontractor, lobbyists and agents are required to report all campaign contributions made from the proposal submittal date up to and until the Board of Directors makes a selection.

2. Status of Past and Present Contracts Form

Offeror shall complete and sign the form entitled “Status of Past and Present Contracts” provided in this RFP and submit as part of its proposal. Offeror shall identify the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract. Offeror shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's proposal.

A separate form must be completed for each identified contract. Each form must be signed by the Offeror confirming that the information provided is true and accurate.

3. Proposal Exceptions and/or Deviations Form

Offerors shall complete the form entitled “Proposal Exceptions and/or Deviations” provided in this RFP and submit it as part of the original proposal. For each exception and/or deviation, a new form should be used, identifying the exception and/or deviation and the rationale for requesting the change. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed nor considered by the Authority.

4. Public Records Act Indemnification Form

Offerors shall complete and sign the form entitled “Public Records Act Indemnification” provided in this RFP and submit it as part of the original proposal. Proposers must complete and sign either Option 1 or Option 2 whichever applies.

SECTION III: EVALUATION AND AWARD

SECTION III. EVALUATION AND AWARD

A. EVALUATION CRITERIA

The Authority will evaluate the offers received based on the following criteria:

1. **Qualifications of the Firm** **25%**

 Technical experience in performing work of a closely similar nature; strength and stability of the firm; strength, stability, experience and technical competence of subcontractors; assessment by client references.
2. **Staffing and Project Organization** **15%**

 Qualifications of project staff, particularly key personnel and especially the Project Manager; key personnel's level of involvement in performing related work cited in "Qualifications of the Firm" section; logic of project organization; adequacy of labor commitment; concurrence in the restrictions on changes in key personnel.
3. **Work Plan** **30%**

 Depth of Offeror's understanding of Authority's requirements and overall quality of work plan; logic, clarity and specificity of work plan; appropriateness of resource allocation among the work; reasonableness of proposed schedule; utility of suggested technical or procedural innovations.
4. **Cost and Price** **30%**

 Reasonableness of the monthly fixed fee and fully-burdened labor rates for the services outlined in Exhibit A, Scope of Work included in this RFP; competitiveness with other offers received; adequacy of data in support of figures quoted.

B. EVALUATION PROCEDURE

An evaluation committee will be appointed to review all proposals received for this RFP. The committee is comprised of Authority staff and may include outside personnel. The committee members will evaluate the written proposals using criteria identified in Section III A. A list of top-ranked proposals, firms within a competitive range, will be developed based upon the totals of each committee members' score for each proposal.

During the evaluation period, the Authority may interview some or all of the proposing firms. The Authority has established July 27, 2021, as the date to conduct interviews. All prospective Offerors are asked to keep this date available.

No other interview dates will be provided, therefore, if an Offeror is unable to attend the interview on this date, its proposal may be eliminated from further discussion. The interview may consist of a short presentation by the Offeror after which the evaluation committee will ask questions related to the firm's proposal and qualifications.

At the conclusion of the proposal evaluations, Offerors remaining within the competitive range may be asked to submit a Best and Final Offer (BAFO). In the BAFO request, the firms may be asked to provide additional information, confirm or clarify issues and submit a final cost/price offer. A deadline for submission will be stipulated.

At the conclusion of the evaluation process, the evaluation committee will recommend to the Transit Committee, the Offeror with the highest final ranking or a short list of top ranked firms within the competitive range whose proposal(s) is most advantageous to the Authority. The Board Committee will review the evaluation committee's recommendation and forward its decision to the full Board of Directors for final action.

C. AWARD

The Authority will evaluate the proposals received and will submit, with approval of the Transit Committee, the proposal considered to be the most competitive to the Authority's Board of Directors, for consideration and selection. The Authority may also negotiate contract terms with the selected Offeror prior to award, and expressly reserves the right to negotiate with several Offerors simultaneously and, thereafter, to award a contract to the Offeror offering the most favorable terms to the Authority.

The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a proposal in response to this RFP shall be notified via CAMM NET of the contract award. Such notification shall be made within three (3) business days of the date the contract is awarded.

Offerors who were not awarded the contract may obtain a debriefing concerning the strengths and weaknesses of their proposal. Unsuccessful Offerors, who wish

to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) business days of notification of the contract award.

EXHIBIT A: SCOPE OF WORK

**SCOPE OF WORK
Bus Stop Maintenance Program**

Objective:

The Contractor shall provide the services to perform on-going general maintenance at each of the Orange County Transportation Authority's (OCTA) existing bus stop locations within Orange, Los Angeles, San Bernardino, and Riverside Counties. All bus stops will be maintained on a regular and continuous basis to ensure they are safe, clean, and in good condition.

Background:

OCTA operates sixty (60) individual bus routes providing service to all of Orange County, as well as several cities in neighboring counties (see Attachment 1). These routes currently service approximately five thousand, four hundred eighty (5,480) bus stop locations, with some of the smaller "Express" routes servicing as few as ten (10) stops and the local fixed routes servicing as many as one hundred fifty (150) stop locations.

The Contractor shall be responsible for performing preventive maintenance at each bus stop location on a pre-determined schedule or cycle, as well as performing other maintenance related tasks.

Along with performing preventive maintenance, the Contractor shall be issued miscellaneous maintenance or emergency work orders on a regular basis. The work covers a variety of issues including, but not limited to removing graffiti, replacing damaged signs/posts, trimming trees, painting red curbs, moving benches, repairing solar lights, etc.

Work orders shall also be issued for each of OCTA's three service changes each year. These work orders vary in scope, and include installing or removing bus stop signs, posts, mounting hardware, informational materials, route schedules, etc.

Contractor's Qualifications:

- 1) The Contractor will possess a current "C-61 Limited Specialty" license, with a D-42 classification, issued by the Contractors State License Board, for the entire length of the contract. If the Contractor does not remain in good standing and the license is revoked or suspended, the Contractor will notify OCTA within ten (10) working days from the date the license was revoked or suspended.

It is recommended but not required, that the Contractor also possesses a "C-61 Limited Specialty" license, with one or more of the following classifications:

- D-63- Construction Clean-up Contractor
- D-34- Prefabricated Equipment Contractor
- D-38- Sand and Water Blasting

2) Obtain a business license(s) and/or permit(s) if required by a local jurisdiction or public agency.

Note: The Contractor **shall** be responsible for all costs or fees associated with obtaining the license and/or permit.

3) Must have a minimum of three (3) years of direct experience working with local, county, state, and/or federal agencies.

4) Must have a minimum of three (3) years of continuous experience maintaining, installing, relocating, and removing street signs and posts, along with extensive experience using core drills, pneumatic tools, and various other power hand tools.

5) Must have a minimum of three (3) years of experience preparing and painting various surfaces, such as concrete or asphalt.

6) Must have a minimum of three (3) years of experience using current standards and practices for trimming and pruning trees and shrubbery.

7) Must have experience working in and around extreme traffic conditions along streets, roadways, and major arterial highways. This experience will include the following:

- The proper placement and utilization of portable traffic diversion devices such as cones, delineators, and barricades.
- The proper placement and operation of mechanical arrow boards or other directional devices used to direct motorists in and around construction zones.

Contractor's Requirements:

Over the course of the maintenance contract, the Contractor will be required to:

1) Maintain an adequate fleet of service vehicles, trucks, and/or trailers large enough to transport equipment, hardware, materials, and/or supplies needed to complete each daily task and/or assignment.

- 2) The Contractor will equip each service vehicle and/or truck with 2-way radios, cell phones, or other communication equipment and will be in direct contact with all maintenance personnel while they are in the field.
- 3) Service vehicles and/or trucks will be equipped with an amber/yellow warning light bar mounted on top of each vehicle in a location that is clearly visible to motorists approaching from the rear of the vehicle. Each light bar will be equipped with multiple rotating strobe lights, along with a multi-directional arrow bar and must follow all laws and regulations.
- 4) Have an established maintenance facility and/or warehouse with office space. The facility must be large enough to accommodate all service vehicles, trailers, trash dumpsters, hardware, materials, and supplies needed to perform the day-to-day work assignments.

Note: All OCTA equipment, materials, supplies, or hardware issued to the Contractor will be locked-up and properly secured prior to leaving the maintenance facility at the close of business each day. The Contractor will be responsible for missing and/or damaged materials and will reimburse OCTA for any costs associated with replacing the materials/hardware.

Also, it is recommended (but not required) that the maintenance facility be located within a reasonable distance (+/- 30-minute drive) from OCTA's Administrative Offices, located at 550 South Main Street, Orange, CA 92868, to ensure the Contractor is able to pick up assignments, work orders, materials, or other miscellaneous items in a timely manner.

- 5) The office will be staffed with a minimum of one (1) employee during normal business hours to handle the administrative functions, report problems or issues, respond to questions or inquires, receive and issue work orders, etc.
- 6) The office will be equipped with a computer, e-mail service, fax machine, telephone, and answering machine.
- 7) Allow OCTA personnel access to the maintenance facility during normal business hours.
- 8) Maintain a twenty-four (24)-hour emergency telephone number.
- 9) Provide and maintain a sufficient work force qualified to perform all required maintenance and tasks outlined in the Scope of Work.

Note: The Contractor will verify the work status of all employees to ensure they have a legal right to work in the United States.

- 10) Be required to dispose of all trash and debris removed from each bus stop location. The trash and debris will be properly disposed of in compliance with all state and local laws and regulations.

Note: Under no circumstance will the Contractor or its employees dispose of or discard any trash or debris in privately owned trash receptacles, dumpsters, or at any unauthorized locations.

- 11) The Contractor will be required to maintain Material Safety Data Sheets (MSDS) for all chemicals and/ or other substances used to maintain OCTA bus stops. Upon request, the Contractor will provide a copy of all MSDS sheets to OCTA.
- 12) The Contractor will provide OCTA with a copy of the Contractor's safety policy or manual, as outlined in Exhibit ___.
- 13) Contractor must comply with the additional safety requirements as set forth in Attachment 23, titled "Additional Required Safe Work Practices".
- 14) All work performed at each bus stop location will be documented in English, and the documentation will be maintained at the Contractor's place of business. Upon request, the Contractor will provide OCTA with a copy of any or all documentation related to the maintenance and upkeep of each bus stop location during the course of the contract.
- 15) Contractor is required to conduct criminal background checks for all personnel assigned to the maintenance of OCTA property. Contractor is required to determine those convictions that would disqualify personnel from working on OCTA property. Convictions that have been subsequently dismissed, sealed, expunged, pardoned or statutorily eradicated need not be listed. California residents need not list convictions for marijuana-related misdemeanor offenses that are more than two years old. If an applicant states they have been convicted of a crime, the applicant is required to state nature of the crime(s), when and where convicted, and disposition of the case. No applicant can be automatically denied employment with the Contractor solely on the grounds of a criminal offense. The nature of the offense, date of the offense, the surrounding circumstances and the relevance of the offense to the position(s) applied for may, however, be considered.
- 16) During the course of the contract, the total number of active bus stops will fluctuate, but these changes should not vary by more than \pm five (5) percent. When changes occur, OCTA will submit a list of all bus stop modifications (new stop locations and/or deleted stops) to the Contractor approximately four (4) to six (6) weeks prior to an upcoming service change.
- 17) Service changes occur on the second Sunday in February, June, and October, and the Contractor will ensure that adequate labor is readily available to perform the required work.

Task 1 - Bus Stop Preventive Maintenance:

The Contractor will be responsible for performing preventive maintenance at each of the roughly 5,480 bus stop locations within OCTA's service area (see Attachment 2). Each bus stop will be inspected and serviced a minimum of once every four (4) weeks, or thirteen (13) times per contract year. When servicing a bus stop location, the Contractor will perform the following inspections and/or maintenance:

- 1) Repair or replace damaged or missing bus stop signs, posts, post anchors, anchor sleeves, or mounting hardware.
- 2) Repair or replace damaged or missing informational cassettes, cassette shields, transit tubes, or mounting hardware.
- 3) Replace or remove any discolored, damaged, or otherwise unreadable route information or schedules.
- 4) Inspect any city signs and posts within the bus zone. If damaged, notify the local jurisdiction within twenty-four (24) hours of servicing the stop.
- 5) Test, repair, or replace any inoperative solar lighting units.
- 6) Remove all trash and debris in and around the bus stop boarding area including tree wells, planters, hedges, underneath street furniture, or other objects.
- 7) Remove all loose trash, debris, or other items that may be lodged at the bottom of trash receptacle. Place a new trash bag and secure it to the receptacle.

Note: Do not empty trash receptacles belonging to a local agency or private company, except under the following conditions:

When trash accumulates and has stacked up above the rim of the container, remove just enough trash (to a level roughly six (6) to eight (8) inches below the rim of the container) to minimize spillage onto the sidewalk area. Notify the owner of the trash receptacles within twenty-four (24) hours of servicing the bus stop.

- 8) Remove all unsanitary items or materials, and if needed wash down the affected area to eliminate any remaining residue.
- 9) Sweep off and remove all dirt, leaves, cigarette butts, or other objects from the sidewalk, passenger boarding area, underneath street furniture, and along the gutter adjacent to the bus zone.

- 10) Remove any shopping carts found within the passenger boarding area. All carts must be moved to an area away from the bus zone and secured to prevent them from rolling into the street, parked vehicles, or other objects.
- 11) Wipe down and clean off all dirt, grime, stains, or other substances found on the bus stop sign, post, or other OCTA hardware.
- 12) Remove any graffiti and/or unauthorized items found on the bus stop or city sign and post, such as paint, ink markings, decals, stickers, campaign signs, garage sale signs, etc.

Note: Any graffiti found on city or privately-owned property (i.e. benches, shelters, newsstands, etc.) and covers an area of roughly twelve (12) inches squared will be removed. Graffiti covering a larger area will be reported to the local jurisdiction and/or private property owner within twenty-four (24) hours of servicing the stop.

- 13) Any graffiti that is offensive in nature will be removed as soon as possible. If the Contractor is unable to completely remove the markings, then the local jurisdiction must be notified as soon as possible, but no later than twenty-four (24) hours after the bus stop has been serviced.
- 14) Inspect the sidewalk/boarding area for potential safety issues or hazards, which includes, but is not limited to the following:
 - a. Uneven or raised surfaces more than 3/4" high.
 - b. Damaged or cracked sidewalks or pathways.
 - c. Objects protruding out of the sidewalk or pathway.
 - d. Water leakage from broken water lines, sprinklers, or other sources.
 - e. Damaged or broken utility boxes, covers or lids (i.e. water meters, pull boxes, etc.)
 - f. Hazardous waste materials.
 - g. Vandalized or damaged benches, shelters, or other objects.
 - h. Tree branch(es) extending over the sidewalk/boarding area, less than seven (7) feet above grade.

Note: If any safety issues or hazards are found, all necessary measures will be taken to minimize or eliminate the potential risks to the public. If required, the local jurisdiction and/or property owner(s) will be notified as soon as possible, but no later than twenty-four (24) hours after the bus stop has been serviced.

Notification will be via e-mail or fax, and a copy of the transmittal will be forwarded to OCTA.

15) Inspect the roadway on both the approach and departure side of the bus zone for roadway damage, safety issues, or hazards that could potentially damage a bus pulling into or out of the bus zone. Hazards may include, but are not limited to the following:

- a. Potholes or uneven roadway surfaces.
- b. Cracked or broken sections of the curb/gutter along the length of the bus zone.
- c. Uneven surfaces, cracked, broken, or other damages to utility boxes or vaults (i.e. storm drains, manholes, underground electrical vaults, etc.)
- d. Tree branches extending into the street less than 14 feet above the roadway.

Note: If any safety issues or hazards are found, all necessary measures will be taken to minimize or eliminate the potential risks to the public. If required, the local jurisdiction and/or property owner(s) will be notified as soon as possible.

Notification will be via e-mail or fax, and a copy of the transmittal will be forwarded to OCTA.

Documentation of Task 1 Maintenance:

All work performed while performing "Preventive Maintenance" will be clearly documented and if follow-up work is required, the appropriate agency(ies) and/or property owner(s) will be notified within twenty-four (24) hours of servicing the bus stop(s). The person performing the maintenance will sign their name at the bottom of each route page and note the date the work was completed.

All documentation will be legible, written in English, and maintained at the Contractor's place of business. Upon request, the Contractor will provide OCTA with any or all documentation associated with the bus stop maintenance program.

TASK 2 - City Assistance Program:

In the event a city does not have the resources or is otherwise unable to meet their obligations for maintaining the bus stop locations, they will have the opportunity to participate in what is known as the "City Assistance Program" (CAP).

Cities participating in this program will provide OCTA with a list of stop locations and the frequency in which these stops will be maintained (once a week, twice a week, etc.) The Contractor will then be required to service each of these locations and perform the sub-tasks as outlined below.

This program is designed in such a way as to allow cities the opportunity to add new stop locations, remove stops from the program, change the service frequency, withdraw completely and/or join the assistance program at their discretion. With this flexibility, there is no guarantee

to the actual number of bus stops that will be serviced from month to month. In view of this, the Contractor will invoice OCTA a "per stop/per visit" fee instead of a firm-fixed monthly preventive maintenance rate.

- 1) Sweep off and remove all dirt, leaves, cigarette butts, or other objects from the sidewalk, passenger boarding area, underneath street furniture, and along the gutter adjacent to the bus zone.
- 2) Remove any unattended shopping carts found within the passenger boarding area. All carts will be moved to an area away from the bus zone and secured to prevent them from rolling into the street, parked vehicles, or other objects.
- 3) Wipe down and clean off all dirt, grime, stains, or other substances found on the bus stop sign, post, or other OCTA hardware.
- 4) Remove any graffiti and/or unauthorized items found on the bus stop or city sign and post, such as paint, ink markings, decals, stickers, campaign signs, garage sale signs, etc.

Note: Any graffiti found on city or privately-owned property (i.e. benches, shelters, newsstands, etc.) covering an area of roughly twelve (12) inches squared will be removed. Graffiti covering a larger area will be reported to the local jurisdiction and/or private property owner within twenty-four (24) hours of servicing the stop.

- 5) Any graffiti that is offensive in nature will be removed as soon as possible. If the Contractor is unable to completely remove the markings, then the local jurisdiction will be notified within twenty-four (24) hours.
- 6) Inspect the sidewalk/boarding area within 18 feet from both sides of the bus stop zone for potential safety issues or hazards, which could include, but are not limited to the following:
 - a. Uneven or raised surfaces more than 3/4" high.
 - b. Damaged or cracked sidewalks or pathways.
 - c. Objects protruding out of the sidewalk or pathway.
 - d. Water leakage from broken water lines, sprinklers, or other sources.
 - e. Damaged or broken utility boxes, covers or lids (i.e. water meters, pull boxes, etc.).
 - f. Hazardous materials or waste. Identify unsanitary areas requiring pressure washing for street furniture and sidewalks and report to the jurisdiction.
 - g. Vandalized or damaged benches, shelters, or other objects.
 - h. Tree branch(es) extending over the sidewalk/boarding area, less than seven (7) feet above grade.
 - i. Large oversized items, trash, or debris. Photograph large items and report to the jurisdiction.

Note: If any safety issues or hazards are found, all necessary measures will be taken to minimize or eliminate the potential risks to the public. If required, the local jurisdiction and/or property owner(s) will be notified as soon as possible. Notification will be made via e-mail or fax, and a copy of the transmittal will be forwarded to OCTA.

- 7) Inspect the roadway on both the approach and departure side of the bus zone for roadway damage, safety issues, or hazards that could potentially damage a bus pulling into or out of the bus zone. Hazards could include, but are not limited to the following:
 - a. Potholes or uneven roadway surfaces.
 - b. Cracked or broken sections of the curb/gutter along the length of the bus zone.
 - c. Uneven surfaces, cracked, broken, or other damages to utility boxes or vaults (i.e. storm drains, manholes, underground electrical vaults, etc.)
 - d. Tree branches extending into the street less than 14 feet above the roadway.

Note: If any safety issues or hazards are found, all necessary measures will be taken to minimize or eliminate the potential risks to the public. If required, the local jurisdiction and/or property owner(s) will be notified as soon as possible. Notification will be made via e-mail or fax, and a copy of the transmittal will be forwarded to OCTA.

- 8) Empty all jurisdiction and/or privately-owned trash receptacles located at each bus stop. Remove all loose trash, debris, or other items that may be lodged at the bottom of each trash receptacle. Place a new trash bag, secure it to the rim of the trash receptacle.

Documentation of Task 2 Maintenance:

All work performed while performing "Preventive Maintenance" will be clearly documented and if follow-up work is required, the appropriate agency(ies) and/or property owner(s) will be notified within twenty-four (24) hours of servicing the bus stop(s). The person performing the maintenance will sign their name at the bottom of each route page and note the date the work was completed.

All documentation will be legible, written in English, and maintained at the Contractor's place of business. Upon request, the Contractor will provide OCTA with any or all documentation associated with the "City Assistance Program".

Task 3 - Maintenance Work Orders:

Miscellaneous work orders are issued on an "as-needed" basis and can cover a variety of issues from removing graffiti, replacing damaged signs/posts, trimming trees, painting, moving benches, repairing solar lights, etc. Should the Contractor observe a condition such as an inoperative solar light or knockdown at a bus stop that warrants the need for a work order, the Contractor is required to contact OCTA with work order requests via phone or email to obtain authorization for all work performed.

Along with the miscellaneous work orders, the Contractor will receive work orders associated with OCTA's service changes. Based on the task, each work order will need to be completed prior to, or just after the effective Service Change date.

The Contractor can also expect to be issued "emergency" or "priority" work orders when a hazardous condition has developed at a bus stop and immediate attention is required. Upon receiving notification (via work order and/or phone call), the Contractor will respond and be on site within two (2) hours and take "all" necessary measures to minimize or eliminate any and all hazard(s).

Note: As noted previously, the Contractor is required to maintain an emergency telephone number and be on-call twenty-four (24) hours a day, seven (7) days per week, in the event a hazardous situation occurs after normal business hours.

Upon receiving a work order(s), the Contractor will date stamp each one and schedule the required work based on the assigned "priority" number. The "priority" numbers range from 1 to 3 and are determined by the type of work required and when the work will be completed.

Priority 1 - Work orders will be completed within twenty-four (24) hours.

Exceptions:

If Dig-Alert needs to be contacted prior to starting the work, the Contractor will notify them by dialing 811 within twenty-four (24) hours of receiving the work order(s). Forty-eight (48) hours after notifying Dig-Alert, the work order(s) will be completed.

Note: After notifying Dig-Alert, the Contractor will note the date called, the person who made the call, and the reference number on each work order.

During a service change, several hundred work orders may be issued and assigned with a "Priority 1" number. Due to the volume of work, the twenty-four (24)-hour completion deadline will not be enforced. Instead, the Contractor will have the flexibility of completing these work orders between the time they received them up to twenty-four (24) hours prior to the start of the service change.

Priority 2 - Work order will be completed within three (3) working days.

Priority 3 - Work order will be completed within five (5) working days.

Work Order Tasks:

A work order could be issued for one or more of the following tasks:

Task 3.10 - Install New Bus Stop Sign:

Work Description: Remove existing city sign(s) from post, install informational signage, place square sign cap or side mount bracket, secure bus stop sign, and reattach city sign(s) (see Attachment 9). If needed, place 10-foot post, 12-foot post or post extension, if 7-foot vertical clearance cannot be maintained, or attach side mount bracket to light standard using steel banding and secure bus stop sign (see Attachments 18-21). Reposition city signage as needed.

Note: Informational signage may include placing one (1) to four (4) informational cassettes, up to two (2) transit tubes, and appropriate mounting hardware.

Seven (7) foot height clearance is not required when sign post is located in areas not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.).

Task 3.11 - Remove Existing Bus Stop Sign:

Work Description: Remove bus stop sign, square sign cap or side mount bracket, informational signage, and reposition city sign(s) to top of sign post.

Note: Informational signage may include up to four (4) informational cassettes, two (2) transit tubes, and appropriate mounting hardware.

If passenger amenities (i.e. bench(es), shelter(s), trash receptacles, etc.) remain at the existing location, notify local jurisdiction, private property owner, bench and/or shelter company within twenty-four (24) hours of removing the bus stop.

Task 3.12 - Relocate Bus Stop Sign (Existing Bus Zone):

Work Description: The required work is similar to that described in Task 3.10 (install new sign) and Task 3.11 (remove existing sign).

Task 3.13 - Relocate Bus Stop Sign (New Location):

Work Description: The required work is similar to that described in Task 3.10 (install new sign) and Task 3.11 (remove existing sign) except it will require traveling to a secondary location.

Note: If passenger amenities (i.e. bench(es), shelter(s), trash receptacles, etc.) remain at the existing location, notify local jurisdiction, private property owner, bench and/or shelter company within twenty-four (24) hours of relocating the bus stop.

Task 3.14 - Replace Damaged or Missing Bus Stop Signs:

Work Description: If needed remove vandalized or damaged bus stop sign from square sign cap or side mount bracket and replace with new sign. If missing replace sign cap, side mount bracket, or other hardware if needed.

Task 3.15 - Place "No Parking" (R26) Signs:

Work Description: Mount "No Parking" (R26) sign on existing post (see Attachment 9) directly below bottom edge of bus stop sign, reposition miscellaneous signage, and if needed, place 10-foot post, 12-foot post or post extension to ensure 7-foot vertical clearance. If 7-foot vertical clearance cannot be maintained, attach "No Parking" (R26) sign to light standard, using steel banding and two (2) flared brackets, directly below the bus stop sign. Reposition city signage as needed.

Note: Seven (7) foot height clearance is not required when sign post is located in areas not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.)

Task 3.16 - Place Type I "Bus Exempt" Signs:

Work Description: Lower existing "Right Lane Must Turn Right" (R18) sign approximately six (6) inches down from top of post, reposition miscellaneous signage if needed, and secure a Type I "Bus Exempt" sign (see Attachment 16) above R18 sign. Place 10-foot post, 12-foot post or post extension to ensure 7-foot vertical clearance. If 7-foot vertical clearance cannot be maintained, attach Type I "Bus Exempt" sign to light standard, using steel banding and two (2) flared brackets, directly above the "Right Lane Must Turn Right" (R18) sign. Reposition miscellaneous signage as needed.

Note: At most intersections, a "Right Lane Must Turn Right" (R18) sign will be located at the beginning of the right turn pocket and at the curb return. A Type I "Bus Exempt" sign will be top mounted on all R18 signs, unless directed otherwise.

Seven (7) foot height clearance is not required when sign post is located in areas not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.)

Task 3.17 - Place Type II "Bus Exempt" Signs:

Work Description: Mount Type II "Bus Exempt" sign (see Attachment 17) just below the existing "Right Lane Turn Only" (R41) sign, and reposition miscellaneous signage as needed. Place 10-foot post, 12-foot post or post extension when 7-foot vertical clearance cannot be maintained.

Attach Type II "Bus Exempt" sign to light standard, using steel banding and two (2) flared brackets, directly below the "Right Lane Turn Only" (R41) sign. Reposition city signage as needed.

Note: At most intersections, a "Right Lane Turn Only" (R41) sign will be located at the beginning of the right turn pocket and at the curb return. A Type II "Bus Exempt" sign will be top mounted on all R41 signs, unless directed otherwise.

Seven (7) foot height clearance is not required when sign post is located in areas not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.)

Task 3.18 - Place or Remove Miscellaneous Informational/Directional Signs:

Work Description: Center mount informational or directional signage directly above or below the bus stop sign on the existing post or light standard. Place 10-foot post, 12-foot post or post extension, if 7-foot vertical clearance cannot be maintained, or attach informational or directional signage to light standard with steel banding and two (2) flare brackets. Reposition miscellaneous signage as needed (see Attachments 9 and 18).

Note: Seven (7) foot height clearance is not required when sign post is located in areas not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.)

Task 3.19 - Install New Bus Stop Sign and Post (Soft Surface):

Work Description: Drive down both a 30-inch post anchor and 18-inch anchor sleeve into the ground twenty-six (26) inches so they extend approximately four (4) inches above grade (see Attachment 8). Top or side-mount new bus stop sign and attach miscellaneous hardware to either an 8-foot, 10-foot or 12-foot square post. Slide post into anchor/sleeve and secure (see Attachment 7).

Miscellaneous hardware may include up to four (4) informational cassettes, two (2) transit tubes, a solar light, and appropriate mounting hardware (see Attachments 12-15).

Note: When installing a sign post, the Contractor will notify Dig-Alert at least forty-eight (48) hours prior to installing the new post. It is highly recommended that the Contractor also probe the general area before installing the sign post to avoid hitting sprinkler lines or other utilities not identified by Dig-Alert.

Task 3.20 - Install New Bus Stop Sign and Post (Firm Surface):

Work Description: Drill three (3) inch diameter hole into concrete or asphalt concrete surface, place 30-inch post anchor into hole and drive down approximately 26 inches (see Attachment 8). Top or side-mount new bus stop sign and attach miscellaneous hardware to either an 8-foot, 10-foot or 12-foot square post. Slide post into anchor/sleeve and secure (see Attachment 7).

Sweep and properly dispose of debris generated from drilling. Patch hole around anchor with plastic mortar mix and broom finish.

Miscellaneous hardware may include up to four (4) informational cassettes, two (2) transit tubes, a solar light, and appropriate mounting hardware (see Attachments 12-15).

Note: When installing a sign post, the Contractor will notify Dig-Alert at least forty-eight (48) hours prior to installing the new post. It is highly recommended that the Contractor also probe the general area before installing the sign post to avoid hitting sprinkler lines or other utilities not identified by Dig-Alert.

Task 3.21 - Remove Bus Stop Sign and Post (Soft or Firm Surface):

Work Description: Pull out sign post, anchor, and sleeve then remove all miscellaneous hardware attached to the sign post. Fill in or patch the remaining hole. If passenger amenities (i.e. bench(es), shelter(s), trash receptacles, etc.) remain at existing location, notify local jurisdiction, private property owner, bench and/or shelter company within twenty-four (24) hours of relocating the bus stop.

Note: Under no circumstances will the Contractor ever leave a location without removing the post anchor/sleeve, or without properly filling in or patching the hole created by the post anchor. The post anchor/sleeve will not be driven downward below the surface to keep from properly removing them, nor will a "No Parking" (R26) or other sign be placed on the post to avoid removing it as required.

Task 3.22 - Relocate Bus Stop Sign and Square Post (Existing Bus Zone):

Work Description: Drive a new 30-inch post anchor and 18-inch anchor sleeve down approximately twenty-six (26) inches or four (4) inches above grade. Remove square post and anchor/sleeve from old location and insert the existing post into the new anchor/sleeve and secure.

Sweep and properly dispose of debris generated from drilling. Patch hole around anchor with plastic mortar mix and broom finish.

Note: When installing a sign post, the Contractor will notify Dig-Alert at least forty-eight (48) hours prior to installing the new post. It is highly recommended that the Contractor also probe the general area before installing the sign post to avoid hitting sprinkler lines or other utilities not identified by Dig-Alert.

Task 3.23 - Relocate Bus Stop Sign to Square Post (Existing Bus Zone):

Work Description: Drive new 30-inch anchor and 18-inch sleeve down approximately twenty-six (26) inches or four (4) inches above grade. Remove all miscellaneous hardware mounted on the non-standard sign post (u-channel, wood, round, or light standard) and attach it to the new 8-foot, 10-foot or 12-foot square post. Slide post into anchor/sleeve and secure.

Remove non-standard sign post, patch remaining hole, and around new anchor with plastic mortar mix and broom finish. Sweep and properly dispose of debris generated from drilling.

Miscellaneous hardware may include from one (1) to four (4) informational cassettes, up to two (2) transit tubes, a solar light, and appropriate mounting hardware.

Note: When installing a sign post, the Contractor will notify Dig-Alert at least forty-eight (48) hours prior to installing the new post. It is highly recommended that the Contractor also probe the general area before installing the sign post to avoid hitting sprinkler lines or other utilities not identified by Dig-Alert.

Task 3.24 - Relocate Bus Stop Sign and Post (New Location):

Work Description: The work required to complete this task is similar to the work described in both Tasks 3.19 and Tasks 3.20, except it requires servicing a secondary location.

If passenger amenities (i.e. bench(es), shelter(s), trash receptacles, etc.) remain at existing location, notify local jurisdiction, private property owner, bench and/or shelter company within twenty-four (24) hours of relocating the bus stop.

Note: When installing a sign post, the Contractor will notify Dig-Alert at least forty-eight (48) hours prior to installing the new post. It is highly recommended that the Contractor also probe the general area before installing the sign post to avoid hitting sprinkler lines or other utilities not identified by Dig-Alert.

Task 3.25 - Replace Damaged Sign Post:

Work Description: Slide damaged post out of anchor and remove all hardware attached to post. Top or side-mount bus stop sign to the new post, attach miscellaneous hardware, then slide post into anchor and secure.

Depending on the extent of damage, other hardware or mounting brackets may need to be replaced.

Task 3.26 - Place Permanent or Temporary Cassette Insert:

Work Description: Remove end plate from cassette, slide old insert out, replace with new insert, and secure end plate.

Task 3.27 - Replace Damaged Cassette Lexan Shield:

Work Description: Remove end plate from cassette and slide out old Lexan shield. Insert a new shield, cassette insert, and reattach end plate.

Place a temporary insert if the original insert has been damaged. With a thick black marker, write the stop ID number, route number(s) and direction(s), on the insert, place inside cassette, and secure end plate.

Task 3.28 - Place or Replace Single Informational Cassette:

Work Description: Mount new cassette on existing sign post or attach two (2) flare shape brackets to light standard using steel banding.

Note: All cassettes will be mounted between forty-two (42) and sixty (60) inches above the sidewalk, unless directed otherwise (see Attachment 7).

Task 3.29 - Place or Remove Dual Informational Cassettes:

Work Description: Remove or loosen existing cassette and attach second cassette on back side of the sign post or mount in a side-by-side position (facing towards oncoming traffic) using special bracket (see Attachment 12).

If mounting on light standard, remove existing cassette, steel banding, and mounting brackets. Reinstall steel banding with four (4) flare brackets and attach both cassettes.

Note: Side-by-Side cassettes will only be placed when the post is located in an area not designed for pedestrian movements and/or activities (i.e. grass areas between curb and sidewalk, behind a sidewalk, in a tree well, etc.).

Task 3.30 - Place or Remove Three or Four-Sided Rotating Cassette Brackets:

Work Description: Remove the bus stop sign and all miscellaneous signage, the sign cap, and existing cassette brackets or transit tube. Mount the new three or four-sided cassette bracket and attach the new cassettes to them. Replace sign cap, bus stop sign, or other miscellaneous signs (see Attachment 13).

Task 3.31 - Place or Remove Single Transit Tube:

Work Description: Remove the bus stop sign and any miscellaneous signage, sign cap, and existing cassette brackets. Mount the new transit tube in the middle of the sign post and insert a 17.5" x 24" informational schedule inside the transit tube and secure. Replace sign cap, bus stop sign, or other miscellaneous signs (see Attachment 14).

Task 3.32 - Place or Remove Dual Transit Tubes:

Work Description: Remove the bus stop sign or miscellaneous signage, sign cap, and the existing transit tube. Attach tubular mounting brackets on opposite sides of sign post (parallel to roadway), attach a transit tube to each bracket, insert a 17.5" x 24" informational schedule inside each tube and secure top section of the brackets.

Replace sign cap, bus stop sign, or other signs that were removed (see Attachment 15).

Task 3.33 - Place Solar Lighting Unit (Standard Down Light Position):

Work Description: Remove all hardware from the existing post and replace the post if it is less than 10 feet high. Insert the wire harness down the center of the post and connect to the "push button" assembly mounted directly below the cassette or transit tube. Connect the opposite end of the harness to the "head" assembly and secure the unit to the top of the post. Test both the flashing "bus signal" and "down light" to ensure they are operational.

Place a side-mount bracket on the right side of sign post below the "head" assembly and attach bus stop sign. Place any miscellaneous signage or other hardware that was removed prior to placing the solar light (see Attachment 10).

Note: When installing a solar lighting unit always record the serial numbers for both the "head" and "push button" assemblies.

The "head" assembly is usually mounted on the post so the "down light" is facing away from the street and onto the sidewalk. No matter what position the "down light" is in, the flashing "bus signal" will "always" face towards oncoming traffic.

Task 3.34 - Place Solar Lighting Unit (Modified Down Light Position):

Work Description: Loosen the top section of "head" assembly and rotated "down light" 90 to 180 degrees, then secure to the main housing unit (the "bus signal" will not be rotated, and will "always" remain in the standard position facing towards oncoming traffic)

Remove all hardware from the existing post and replace the post if it is less than ten (10) feet high. Insert the wire harness down the center of the post and connect to the "push button" assembly mounted directly below the cassette or transit tube. Connect the opposite end of the harness to the "head" assembly and secure the unit to the top of the post. Test both the flashing "bus signal" and "down light" to ensure they are operational.

Place a side-mount bracket on the right side of the side post just below the "head" assembly and attach the bus stop sign (see Attachment 11). Also, place any miscellaneous signage of other hardware that was removed prior to placing the solar light.

Note: When installing a solar lighting unit always record the serial numbers for both the "head" and "push button" assemblies.

Task 3.35 - Remove Solar Lighting Unit:

Work Description: Remove all signage and mounting hardware from the post. Remove solar light "head" assembly and disconnect the wire harness. Remove the "push button" assembly mounted below the cassette or transit tube and disconnect and pull out the harness through the post.

If needed, replace the 10-foot post with a new 8-foot post. Secure any cassette brackets or transit tubes to the post, place a sign cap on top of the post, then fasten the bus stop sign. Remount any miscellaneous signs as needed.

Note: When removing a solar lighting unit, always record the serial numbers for both the "head" and "push button" assemblies.

Task 3.36 - Relocate Solar Lighting Unit:

Work Description: The required work is similar to that described in Task 3.32 (Placing a Solar Light) and Task 3.34 (Removing a Solar Light), except it will require traveling to a secondary location.

Note: When relocating a solar lighting unit always record the serial numbers for both the "head" and "push button" assemblies.

Task 3.37 - Replace Solar Light Head Assembly:

Work Description: Remove the "head" assembly, disconnect the wire harness, and attach it to a new housing unit then secure to sign post.

Test both the flashing "bus signal" and "down light" to ensure they are operational.

Note: When replacing a "head" assembly always record the serial numbers for both the old and new units.

Task 3.38 - Repair or Replace Solar Light Push Button Assembly:

Work Description: Remove the "push button" assembly, inspect the circuit board connections, and replace wiring if needed. If repairs cannot be made, disconnect the wire harness and attach a new "push button" assembly then secure to sign post.

Test both the flashing "bus signal" and "down light" to ensure they are operational.

Note: When replacing a "head" assembly always record the serial numbers for both the old and new units.

Task 3.39 - Replace Solar Light Wire Harness:

Work Description: Remove both the "head" and "push button" assemblies from the sign post and disconnect the wire harness from each unit. Remove old wiring and insert new harness through the center of the post. Reconnect new wire harness to both the "push button" and "head" assemblies and remount unit to sign post.

Test both the flashing "bus signal" and "down light" to ensure they are operational.

Task 3.40 - Relocate Metal or Wrought Iron Trash Receptacle (Existing Bus Zone):

Work Description: Relocate a city or privately-owned trash receptacle (weighing between 100 to 350 pounds) from the current location and shift it to a new position within the existing bus zone (see Attachments 4-6). One or more holes may need to be drilled into the sidewalk for anchor bolts to secure the trash receptacle. All anchor bolts at the old location will either be removed or cut off flush with the adjoining sidewalk.

Task 3.41 - Relocate Metal or Wrought Iron Trash Receptacle (New Bus Zone):

Work Description: The required work will require traveling to a secondary location to install the trash receptacle. All anchor bolts will either be removed or cut off flush with the adjoining sidewalk prior to leaving the location.

Any trash and debris remaining in and around the existing bus zone will be picked up and disposed of prior to moving to the new location.

Task 3.42 - Relocate Concrete Trash Receptacle(s):

Work Description: Relocate a city or privately-owned trash receptacle (weighing between 250 to 350 pounds) from the current location and moved to a new position within the existing bus zone (see Attachments 4-6).

Task 3.43 - Relocate Metal or Wrought Iron Bench(es) (Existing Bus Stop):

Work Description: Relocate a city or privately-owned bench (weighing between 150 and 350 pounds) from the current location and moved to a new position within the existing bus zone. Several holes may need to be drilled into the sidewalk for anchor bolts to secure each bench. All anchor bolts at the old location will either be removed or cut off flush with the adjoining sidewalk.

Task 3.44 - Relocate Metal or Wrought Iron Bench(es) (New Bus Stop):

Work Description: The required work will require traveling to a secondary location to install the bus bench.

All anchor bolts will either be removed or cut off flush with the adjoining sidewalk prior to leaving the location.

Task 3.45 - Relocate City Concrete Bench(es) (Existing Bus Stop):

Work Description: City or privately owned concrete benches (weighing between 250 and 600 pounds) will be shifted or relocated to a new area within the existing bus zone.

Task 3.46 - Remove Graffiti:

Work Description: Remove all graffiti or unauthorized items attached to the bus stop sign, sign post, display case, cassette, cassette shield, transit tube, or other signs affixed to OCTA's sign post. To include, but not limited to: paint, ink markings, decals, stickers, campaign signs, garage sale signs, etc.

Task 3.47 - Empty Trash Receptacle(s):

Work Description: Empty trash receptacle(s) as needed. Remove any loose trash or particles that settled at the bottom of the receptacle. Pick up and remove all trash and debris lying on the ground around the trash receptacle. Place a new trash bag and secure it to the top rim of receptacle.

Task 3.48 - Trim Tree(s) and Bushes:

Work Description: Trim trees or other vegetation blocking or obstructing the bus zone, passenger boarding area, sidewalk, bus stop sign, informational signs, benches or shelters (see Attachment 22). Pick up trimmings and sweep off the sidewalk.

Task 3.49 - Remove Weeds:

Work Description: Remove all weeds growing between the curb and adjoining sidewalk, along sidewalk expansion joints, behind the sidewalk, and under benches and shelters. Pick up weeds and sweep off the sidewalk.

Task 3.50 - General Bus Stop Maintenance:

Work Description: Perform general maintenance in and around the bus zone (see Attachment 3), which includes: Sweeping off the sidewalk/boarding area, removing trash or debris from the gutter, relocating news racks, removing shopping carts, removing unsanitary items or materials, wiping down dirty benches, or other miscellaneous items.

Task 3.51 - Steam Clean Passenger Boarding Area:

Work Description: Steam clean boarding area (see Attachments 4-6) to remove dirt, grime, stains, or other substances covering the sidewalk, benches, shelters, and trash receptacles. Remove any standing water from boarding area. Collect all waste water and dispose of it per existing local, county, and state ordinances.

The average area to be steam cleaned will vary from 8 feet x 25 feet (200 sq. ft.) to 8 feet x 80 feet (640 sq. ft.).

Note: Under no circumstance will waste water be poured down a storm drain.

Task 3.52 - Place Red Curb:

Work Description: Prepare curb surface. Paint or re-paint curb along the length of the bus zone using traffic red paint

The average length of curb to be painted will range between forty (40) and eighty (80) linear feet.

Note: If a paint sprayer is used, the Contractor will take reasonable precautions to protect vehicles or other property in the area.

Task 3.53 - Remove Red Curb (Gray Out):

Work Description: Prepare curb surface. Paint over the existing section of red curb using traffic gray paint. If required, a second coat of gray paint will be applied to completely cover the existing red curb.

The average length of curb to be painted will range between forty (40) and eighty (80) linear feet.

Note: If a paint sprayer is used, the Contractor will take reasonable precautions to protect vehicles or other property in the area.

Task 3.54 - Remove Red Curb (Sand-Blasting):

Work Description: Sandblast curb to remove all red paint along the length of the bus zone.

The average length of red curb to be sandblasted will range from forty (40) to eighty (80) linear feet.

Note: Safety precautions will be taken to protect both the public and maintenance crew. In addition, reasonable care will be taken to avoid any collateral damage to vehicles or other property

Task 3.55 - Field Check Miscellaneous Bus Stop Locations:

Work Description: Drive to a specific bus stop location to inspect or evaluate existing conditions at the stop.

Note: If a work order is issued for one of the tasks noted above and no identifiable maintenance problem(s) exists, or it is determined to be the wrong location, the Contractor will be permitted to invoice OCTA under this task for the cost of dispatching a service vehicle.

Task 3.56 - Miscellaneous Work Orders:

Work Description: Perform miscellaneous work or tasks not listed in the above tasks. This may include, but not limited to: placing non-standard signs and posts, relocating and removing shelters, etc.

Note: The Contractor will be permitted to invoice OCTA for time and materials used to complete this task. Under no circumstance will the Contractor charge OCTA for the cost to rent or lease equipment that is required to perform the day-to-day maintenance outlined in Tasks 1, 2, and 3 (i.e. core drill, sand blaster, compressor, steam cleaner, etc.) without prior written approval from OCTA.

Task 3.57 - Emergency Work Orders:

Work Description: Perform all maintenance required to minimize or eliminate any hazardous or dangerous situation that has developed at a bus stop after normal working hours.

Upon receiving notification (via work order and/or phone call), the Contractor will respond and be on site within two (2) hours.

Documentation of Task 3 Maintenance:

After completing a work order, the Contractor will inspect the bus zone and perform any additional maintenance that may be needed. Any secondary work performed, while at the stop, will be noted on the work order.

The Contractor will also note the materials and/or hardware used to complete the work by checking the appropriate box(es) at the bottom of each work order. If the work cannot be completed for any reason, the appropriate box will be checked, and the Contractor will note what follow-up work is required. Prior to departing the stop location, the person performing the maintenance will sign the work order and enter the date the work was completed.

All notations and/or comments written on each work order will be legible and in English.

Completed work orders will be returned to OCTA within seven (7) to ten (10) working days.

Bus Zone Procedures:

- 1) Upon arriving at a bus stop, the Contractor will make every attempt to position or park the service vehicle behind the stop to allow buses full access to bus zone. If an off-street location is not available, the Contractor can park the service vehicle in the roadway, adjacent to the bus zone. When this occurs, the service vehicle should be parked on the departure side, or the far end, of the bus zone.
- 2) In the event that the service vehicle(s) is required to park in the roadway, traffic diversion devices such as cones, delineators, and/or barricades will be properly placed allowing motorists to safely maneuver around the bus zone while servicing the stop.
- 3) To ensure the safety of pedestrians in the immediate area, the Contractor may need to cordon off or place barricades around the work area prior to performing any maintenance.

Note: The Contractor may be required to close down the entire bus stop to complete an assigned task. If this situation occurs, the Contractor will cordon off the sidewalk and will place a discontinued sign over the permanent bus stop sign and place a temporary sign in a location outside the work area.

Prior to closing down any bus stop/zone, the Contractor will coordinate the closure with the Supervisor of the Stops and Zones Section or with OCTA's Field Operations Department.

Contractor's Performance:

- 1) The Contractor will complete all assigned work per OCTA's standards to ensure that each bus stop location is safe, clean, and in good condition.
- 2) The Contractor will perform and complete all assigned work in the prescript timeframes as outlined in Tasks 1, 2, and 3.
- 3) If the Contractor's conduct, performance, or work does not meet OCTA's standards, they will be notified in writing and given twenty-four (24) hours to take any required corrective action. If for any reason the Contractor is unable or unwilling to comply with the demand, OCTA may take the necessary steps to rectify the situation. Any costs incurred by OCTA may be deducted from the Contractor's monthly invoice.

If the Contractor fails to respond and does not take corrective action, OCTA may choose to terminate the contract for default.

NOTES:

- ▨ Area to be inspected when performing Task I & Task II (actual size varies by location).
- ① Bus stop sign, post, & informational signage - inspect and repair as needed.
- ② Inspect condition of sidewalk.
- ③ Any obstacles within front and/or rear door boarding areas will be relocated or removed.
- ④ Inspect shelter(s) and/or bench(es) when servicing the stop.
- ⑤ Empty all trash receptacle(s).
- ⑥ Trash will also be picked up from behind the sidewalk/boarding area.
- ⑦ Trim tree(s) or other vegetation extending out over the sidewalk and/or into the roadway.
- ⑧ Inspect curb & gutter for damages and remove any trash or debris.
- ⑨ Inspect roadway for pot holes or other damages.

NOTES:

- ① Bus stop sign, post, & informational signage
- ② Front door wheelchair boarding area
- ③ Rear door wheelchair boarding area
- ④ Typical shelter location between boarding areas
- ⑤ Bench location when shelter is present
- ⑥ Trash receptacle placed 3' to 4' from bench or shelter
- ⑦ 4 ft. minimum clearance around all objects or obstacles.

Preferred Bench Placement

Alternate Bench Placement

NOTES:

- ① Bus stop sign, post, & informational signage
- ② Front door wheelchair boarding area
- ③ Rear door wheelchair boarding area
- ④ Preferred bench location (on back side of sidewalk)
- ⑤ Alternate bench location
- ⑥ Trash receptacle placed 3' to 4' from bench(es)
- ⑦ 4 ft. minimum clearance around all objects

NOTES:

- ① Bus stop sign, post, & informational signage.
- ② Front door wheelchair boarding area.
- ③ Rear door wheelchair boarding area.
- ④ Trash receptacle placed on backside of sidewalk, 8' to 10' from sign post.
- ⑤ Location for additional trash receptacle (if needed).

TYPICAL CROSS SECTION

SECTION A-A

NOTE:

- 1) The OCTA bus stop sign should be top mounted above city sign(s) (unless directed otherwise).
- 2) If the bus stop sign is removed, all city signs will be raised to the top of the sign post.

NOTE:

- 1) Solar light head assembly top mounted on standard 10' square sign post.
- 2) Head assembly installed with down light oriented towards sidewalk/boarding area on right side of sign post.
- 3) Head assembly installed with flashing bus signal/beacon pointed towards on-coming traffic.
- 4) The bus stop sign is side mounted on right side of post, below the solar light.
- 5) Push button assembly mounted directly below informational cassette.
- 6) Wire harness inserted through center of sign post and attached to both "head" and "push button" assemblies.

Down Light

Bus Signal/Beacon

Wire Harness Inside Sign Post

Remove End Plate To Place Cassette Insert.

NOTE:

- 1) Solar light head assembly top mounted on standard 10' square sign post.
- 2) The solar light placed on back side or behind sidewalk when existing width is less than six (6) feet.
- 3) Head assembly installed with down light facing towards street.
- 4) Head assembly installed with flashing bus signal/beacon pointed towards on-coming traffic.
- 5) The bus stop sign is side mounted on left side of post, below the solar light.
- 6) Push button assembly mounted directly below informational cassette.
- 7) Wire harness inserted through center of sign post and attached to both "head" and "push button" assemblies.

NOTE:

- 1) Tree branches or other vegetation hanging below 14' will be trimmed or removed.
- 2) Tree branches or other vegetation extending more than 2 feet beyond curb face will be trimmed or removed.
- 3) Tree branches or other vegetation extending out over the sidewalk or boarding area, below 7' will be trimmed or removed.

Additional Required Safe Work Practices

Abrasive Blasting

Abrasive blasting operations shall comply with SCAQMD Rule 1140, CCR Title 8, 5155, 5144, and 5149. Prior to abrasive blasting operations the Contractor shall provide a JSA to OCTA Project Manager a minimum of seven day prior to the scheduled activity.

All abrasive blasting shall be wet-blasting and vacuum method to minimize and manage dust plumbs. Contractor shall use a non-silica blast media to minimize public health concerns. Blasting containment methods are required where there is the potential of public exposure and/or property damage.

Sand Reservoir and Hose Assembly

- Barricade the activity area using type 2 barricades and caution tape for protection of workers and the public.
- Review Safe Operating Procedures for applicable equipment and perform pre-operational checks.
- Check all fittings for leaks and alignments.
- Muffler should be attached to compressor to reduce blowback noise.
- Check position of all valves before activating blaster. Nozzle should have a "Dead Man" shutoff valve.
- Drain water from the separator.
- Stand clear and do not face sand reservoir after filling. Be careful not to overfill.
- Keep unauthorized personnel out of immediate sandblast area.
- Check blasting hoses for rips, tears and soft spots. Do not use defective hoses.
- Check nozzle shutoff mechanism prior to use and check nozzle for wear.
- Do not allow vehicles to run over hoses. Avoid kinks and sharp turns in hoses.
- Avoid dragging hoses over concrete or any surface that could induce wear.

Sandblasting Hood

- Adjust helmet headband and chin strap to proper size. Clean and disinfect hood before use.
- Make sure hood-skirting is fitted down over shoulder and snaps are fastened.
- The waist belt for the air hose should be worn outside of skirting to allow easy adjustment.
- Check the air supply system.
- Long sleeve shirts, safety glasses, safety shoes and hearing protection are required.
- A positive pressure air hood is required. The supplied air must be at least Grade D breathable air.

Grade D air has the following characteristics:

- Oxygen content from 19.5 to 23.5 percent
- Condensed oil at 5 mg/m³
- Carbon monoxide (CO) not to exceed 10 parts per million (ppm)
- Carbon dioxide (CO₂) not to exceed 1,000 (ppm)
- No odor

High Pressure Water Cleaning

High Pressure Water Cleaning scope activity shall comply with 29 CFR 1926.21, 1926.59, 1926.62, and CCR Title 8, Standards.

Introduction and Definition of Pressure Washing:

High pressure water washing (or cleaning, jetting) is defined as the use of high pressure water, with or without the addition of other liquids or solid particles, to remove unwanted matter from various surfaces, where the pressure of the liquid jet exceeds 1,000 PSIG at the orifice (or nozzle). The lower limit of 1,000 PSIG does not mean that pressures below 1,000 PSIG cannot cause injury or require any less attention to the principal of these recommended practices. Adequate precautions, similar to those of these recommended practices, are required at all pressures.

This standard operating procedure provides only minimum general requirements. The equipment manufacturer's manual should be read and followed.

Pressure Washing Equipment Requirements:

Automatic Pressure Relief: The system shall be equipped with an automatic pressure relief device on the discharge side of the pump, adjusted so that the manufacturer's maximum allowable system pressure is not exceeded.

Pressure Gauge: The system shall be equipped with a gauge to indicate the pressure being developed.

Personal Protection Equipment:

Each operator shall wear, as a minimum, the following personnel protection equipment. Additional equipment may be necessary if chemical or other hazards are present.

- Whole Body: Liquid chemical resistant suits
- Head: Hard hat
- Eyes and Face: Face shield and safety glasses
- Foot: Waterproof steel toe/steel shank boots
- Hearing: Ear plugs or ear muffs

Operator Training:

Only trained (experienced) personnel shall operate high pressure washing equipment, and supervise the training of new operators.

Operational Rules:

- Barricade the activity area using type 2 barricades and caution tape for protection of workers and the public.
- Never operate the equipment above the manufacturer's rated pressure maximum.
- Increase pressure slowly until required working pressure is reached.
- Always rope off the area to be cleaned.
- Never point the nozzle at a person. Remember that a water jet can puncture splash suits and other personal protective clothing.

Concrete, Masonry, and Coring Activities

Concrete and masonry scope activity shall comply with 29 CFR 1926.700, and CCR Title 8 Standards.

The management of concrete and coring work hazards may include the following.

- Barricade the activity area using type 2 barricades and caution tape for protection of workers and the public.
- Concrete cutting/coring operations shall require adequate hearing protection.
- Personnel exposed to any concrete dust shall be protected from breathing dust by engineering controls and/or respiratory protection.
- Contractor shall ensure dust control measures are implemented to minimize airborne dust, control motorized equipment to prevent traffic hazards, ensure the visibility of ground personnel by equipment operators.
- The safety of workers placing concrete, enforce proper PPE for workers exposed to dermal or respiratory concrete cement hazards, eliminate potential impalement hazards, require safe work practices for cutting and forming channels, and inspect work areas daily for housekeeping of materials, tools, and equipment.
- Reinforcing steel bar placed vertically or horizontally shall be protected from posing an impalement hazard.

- Planning of dust creating tasks shall include control measures for potential exposure of the public or workers to concrete dust tasks or operations that dust could migrate to workers in the immediate area or down-wind breathing areas.
- No dry cutting of concrete or block unless airborne dust can be prevented, no sweeping, air-blowing of concrete dust, or mixing dry cement without proper respiratory protection and dust control measures.

Traffic Control Safeguards

Contractor shall be in compliance with the Manual on Uniform Traffic Control Devices (MUTCD), approved Traffic Control Plans (TCP's), the WATCH Manual, CCR Title 8 Standards and similar traffic and employee protective requirements shall be in compliance for traffic related activities.

Signs, signals and barricades shall be visible at all times where a hazard exists.

All streets, roads, highways, and other public thoroughfares which are closed to traffic shall be protected by effective barricades on which shall be placed acceptable and highly visible warning signs. Barricades must be located at the nearest intersecting public highway or street on each side of the blocked section.

All barricades and obstructions shall be illuminated by means of warning lights from sunset to sunrise. Materials stored upon or alongside public streets and highways shall be so placed, and the work at all times shall be so conducted, as to cause the minimum obstruction and inconvenience to the traveling public.

Barricades, signs, lights and other protective devices shall be installed and maintained in conformity with applicable statutory requirements and, where within railroad and highway right-of-way, as required by jurisdiction.

When any work is performed at night or where daylight is shut off or obscured, contractor shall, at its expense, provide artificial light sufficient to permit work to be carried on efficiently, satisfactorily and safely, and to permit thorough inspection. During such time periods the access to the place of work shall also be clearly illuminated. All wiring for electric light and power shall be installed and maintained in a professional manner, securely fastened in place at all points, and shall be kept as far as possible from telephone wires, signal wires, and wires used for firing blasts.

Signs, signals and barricades shall be removed when the hazard no longer exists.

Contractor employees working in an area of potential traffic hazards shall wear (class 2 or 3) reflective type vests and clothing.

EXHIBIT C: PROPOSED AGREEMENT

PROPOSED AGREEMENT NO. C-1-3408

BETWEEN

ORANGE COUNTY TRANSPORTATION AUTHORITY

AND

THIS AGREEMENT is effective this 1st day of December, 2021 ("Effective Date"), by and between the Orange County Transportation Authority, 550 South Main Street, P.O. Box 14184, Orange, California 92863-1584, a public corporation of the State of California (hereinafter referred to as "AUTHORITY"), and , , , (hereinafter referred to as "CONTRACTOR").

WITNESSETH:

WHEREAS, AUTHORITY requires assistance from CONTRACTOR to provide bus stop maintenance services; and

WHEREAS, said work cannot be performed by the regular employees of AUTHORITY; and

WHEREAS, CONTRACTOR has represented that it has the requisite personnel and experience, and is capable of performing such services; and

WHEREAS, CONTRACTOR wishes to perform these services;

NOW, THEREFORE, it is mutually understood and agreed by AUTHORITY and CONTRACTOR as follows:

ARTICLE 1. COMPLETE AGREEMENT

A. This Agreement, including all exhibits and documents incorporated herein and made applicable by reference, constitutes the complete and exclusive statement of the terms and conditions of this Agreement between AUTHORITY and CONTRACTOR and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.

B. AUTHORITY's failure to insist in any one or more instances upon CONTRACTOR's performance of any terms or conditions of this Agreement shall not be construed as a waiver or

EXHIBIT C

1 relinquishment of AUTHORITY's right to such performance or to future performance of such terms or
2 conditions and CONTRACTOR's obligation in respect thereto shall continue in full force and effect.
3 Changes to any portion of this Agreement shall not be binding upon AUTHORITY except when
4 specifically confirmed in writing by an authorized representative of AUTHORITY by way of a written
5 amendment to this Agreement and issued in accordance with the provisions of this Agreement.

6 **ARTICLE 2. AUTHORITY DESIGNEE**

7 The Chief Executive Officer of AUTHORITY, or designee, shall have the authority to act for and
8 exercise any of the rights of AUTHORITY as set forth in this Agreement.

9 **ARTICLE 3. SCOPE OF WORK**

10 A. CONTRACTOR shall perform the work necessary to complete in a manner satisfactory to
11 AUTHORITY the services set forth in Exhibit A, entitled "Scope of Work," attached to and, by this
12 reference, incorporated in and made a part of this Agreement. All services shall be provided at the times
13 and places designated by AUTHORITY.

14 B. CONTRACTOR shall provide the personnel listed below to perform the above-specified
15 services, which persons are hereby designated as key personnel under this Agreement.

16 **Names**

Functions

17
18
19
20
21 C. No person named in paragraph B of this Article, or his/her successor approved by
22 AUTHORITY, shall be removed or replaced by CONTRACTOR, nor shall his/her agreed-upon function
23 or level of commitment hereunder be changed, without the prior written consent of AUTHORITY. Should
24 the services of any key person become no longer available to CONTRACTOR, the resume and
25 qualifications of the proposed replacement shall be submitted to AUTHORITY for approval as soon as
26 possible, but in no event later than seven (7) calendar days prior to the departure of the incumbent key

1 person, unless CONTRACTOR is not provided with such notice by the departing employee. AUTHORITY
2 shall respond to CONTRACTOR within seven (7) calendar days following receipt of these qualifications
3 concerning acceptance of the candidate for replacement.

4 **ARTICLE 4. TERM OF AGREEMENT**

5 A. This Agreement shall commence on December 1, 2021 and shall continue in full force and
6 effect through November 30, 2024, unless earlier terminated or extended as provided in this
7 Agreement.

8 B. AUTHORITY, at its sole discretion may elect to extend the term of this Agreement up to an
9 additional twenty-four (24) months, commencing December 1, 2024 and continuing through November
10 30, 2026 ("First Option Term"), and thereupon require CONTRACTOR to continue to provide services,
11 and otherwise perform, in accordance with Exhibit A, entitled "Scope of Work," at the rates set forth in
12 Article 5, "Payment."

13 C. AUTHORITY, at its sole discretion may elect to extend the term of this Agreement up to an
14 additional twenty-four (24) months, commencing December 1, 2026 and continuing through November
15 30, 2028 ("Second Option Term"), and thereupon require CONTRACTOR to continue to provide
16 services, and otherwise perform, in accordance with Exhibit A, entitled "Scope of Work," at the rates
17 set forth in Article 5, "Payment."

18 D. AUTHORITY's election to extend this Agreement beyond the Initial Term shall not diminish
19 its rights to terminate the Agreement for AUTHORITY's convenience or CONTRACTOR's default as
20 provided elsewhere in this Agreement. The "maximum term" of this Agreement shall be
21 the period extending from December 1, 2021 through November 30, 2028, which period encompasses
22 the Initial Term, First and Second Option Terms.

23 **ARTICLE 5. PAYMENT**

24 A. For CONTRACTOR's full and complete performance of its obligations under this Agreement
25 and subject to the maximum cumulative payment obligation provisions set forth in Article 6, AUTHORITY
26 shall pay CONTRACTOR on a time and expense-price basis in accordance with the following provisions.

EXHIBIT C

1 B. For the work satisfactorily performed by CONTRACTOR's personnel under this Agreement,
2 AUTHORITY shall pay CONTRACTOR at the price specified in Exhibit B, entitled "Price Summary
3 Sheet", attached to, and by this reference, incorporated in and made a part of this Agreement. These
4 prices shall remain fixed for the term of this Agreement and are acknowledged to include
5 CONTRACTOR's direct costs, indirect costs, taxes and profit. The schedule shall not include any
6 CONTRACTOR's expenses not approved by AUTHORITY, including, but not limited to reimbursement
7 for local meals.

8 C. CONTRACTOR shall invoice AUTHORITY on a monthly basis for payments corresponding
9 to the work actually completed by CONTRACTOR. Percentage of work completed shall be documented
10 in a monthly progress report prepared by CONTRACTOR, which shall accompany each invoice submitted
11 by CONTRACTOR. CONTRACTOR shall also furnish such other information as may be requested by
12 AUTHORITY to substantiate the validity of an invoice. At its sole discretion, AUTHORITY may decline to
13 make full payment for any work until such time as CONTRACTOR has documented to AUTHORITY's
14 satisfaction, that CONTRACTOR has fully completed all work required. AUTHORITY's payment in full
15 for any task completed shall constitute AUTHORITY's final acceptance of CONTRACTOR's work under
16 such task.

17 D. Invoices shall be submitted by CONTRACTOR on a monthly basis and shall be submitted in
18 duplicate to AUTHORITY's Accounts Payable office. CONTRACTOR may also submit invoices
19 electronically to AUTHORITY's Accounts Payable Department at vendorinvoices@octa.net. Each invoice
20 shall be accompanied by the monthly progress report specified in paragraph C of this Article.
21 AUTHORITY shall remit payment within thirty (30) calendar days of the receipt and approval of each
22 invoice. Each invoice shall include the following information:

- 23 1. Agreement No. C-1-3408;
- 24 2. Specify the work for which payment is being requested;
- 25 3. The time period covered by the invoice;
- 26 4. Total monthly invoice (including project-to-date cumulative invoice amount);

5. Monthly Progress Report;

6. Certification signed by the CONTRACTOR or his/her designated alternate that a)

The invoice is a true, complete and correct statement of reimbursable costs and progress; b) The backup information included with the invoice is true, complete and correct in all material respects; c) All payments due and owing to subcontractors and suppliers have been made; d) Timely payments will be made to subcontractors and suppliers from the proceeds of the payments covered by the certification and; e) The invoice does not include any amount which CONTRACTOR intends to withhold or retain from a subcontractor or supplier unless so identified on the invoice.

E. Any other information as agreed or requested by AUTHORITY to substantiate the validity of an invoice.

ARTICLE 6. MAXIMUM OBLIGATION

Notwithstanding any provisions of this Agreement to the contrary, AUTHORITY and CONTRACTOR mutually agree that AUTHORITY's maximum cumulative payment obligation (including obligation for CONTRACTOR's profit) shall be _____ Dollars (\$.00) which shall include all amounts payable to CONTRACTOR for its subcontracts, leases, materials and costs arising from, or due to termination of, this Agreement.

ARTICLE 7. NOTICES

All notices hereunder and communications regarding the interpretation of the terms of this Agreement, or changes thereto, shall be effected by delivery of said notices in person or by depositing said notices in the U.S. mail, registered or certified mail, returned receipt requested, postage prepaid and addressed as follows:

To CONTRACTOR:

To AUTHORITY:

Orange County Transportation Authority

550 South Main Street

P.O. Box 14184

Orange, CA 92863-1584

1 ATTENTION:

ATTENTION: Sue Ding

2 Sr. Contract Administrator

3 (714) 560 - 5631

4 sding@octa.net

5 **ARTICLE 8. INDEPENDENT CONTRACTOR**

6 A. CONTRACTOR's relationship to AUTHORITY in the performance of this Agreement is that of
7 an independent contractor. CONTRACTOR's personnel performing services under this Agreement shall
8 at all times be under CONTRACTOR's exclusive direction and control and shall be employees of
9 CONTRACTOR and not employees of AUTHORITY. CONTRACTOR shall pay all wages, salaries and
10 other amounts due its employees in connection with this Agreement and shall be responsible for all
11 reports and obligations respecting them, such as social security, income tax withholding, unemployment
12 compensation, workers' compensation and similar matters.

13 B. Should CONTRACTOR's personnel or a state or federal agency allege claims against
14 AUTHORITY involving the status of AUTHORITY as employer, joint or otherwise, of said personnel, or
15 allegations involving any other independent contractor misclassification issues, CONTRACTOR shall
16 defend and indemnify AUTHORITY in relation to any allegations made.

17 **ARTICLE 9. INSURANCE**

18 A. CONTRACTOR shall procure and maintain insurance coverage during the entire term of this
19 Agreement. Coverage shall be full coverage and not subject to self-insurance
20 provisions. CONTRACTOR shall provide the following insurance coverage:

21 1. Commercial General Liability, to include Products/Completed Operations,
22 Independent Contractors', Contractual Liability, and Personal Injury Liability, and Property Damage with
23 a minimum limit of \$1,000,000.00 per occurrence and \$2,000,000.00 general aggregate;

24 2. Automobile Liability Insurance to include owned, hired and non-owned autos with
25 a combined single limit of \$1,000,000.00 each accident;

EXHIBIT C

1 3. Workers' Compensation with limits as required by the State of California including
2 a waiver of subrogation in favor of AUTHORITY, its officers, directors, employees or agents;

3 4. Employers' Liability with minimum limits of \$1,000,000.00;

4 5. Professional Liability with minimum limits of \$1,000,000.00 per claim; and

5 6. Pollution Liability with minimum limits of \$1,000,000.00.

6 B. Proof of such coverage, in the form of a certificate of insurance, with the AUTHORITY, its
7 officers, directors, employees and agents, designated as additional insureds as required by contract. In
8 addition, provide an insurance policy blanket additional insured endorsement. Both documents must be
9 received by AUTHORITY prior to commencement of any work. Proof of insurance coverage must be
10 received by AUTHORITY within ten (10) calendar days from the effective date of this Agreement. Such
11 insurance shall be primary and non-contributive to any insurance or self-insurance maintained by the
12 AUTHORITY. Furthermore, AUTHORITY reserves the right to request certified copies of all related
13 insurance policies.

14 C. CONTRACTOR shall include on the face of the certificate of insurance the Agreement
15 Number C-1-3408; and, the Contract Administrator's Name, Sue Ding.

16 D. CONTRACTOR shall also include in each subcontract the stipulation that subcontractors
17 shall maintain insurance coverage in the amounts required from CONTRACTOR as provided in this
18 Agreement.

19 E. CONTRACTOR shall be required to immediately notify AUTHORITY of any modifications
20 or cancellation of any required insurance policies.

21 **ARTICLE 10. ORDER OF PRECEDENCE**

22 Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence:
23 (1) the provisions of this Agreement, including all exhibits; (2) the provisions of RFP 1-3408;
24 (3) CONTRACTOR's proposal dated _____ ; (4) all other documents, if any, cited herein or
25 incorporated by reference.

26 /

1 **ARTICLE 11. CHANGES**

2 By written notice or order, AUTHORITY may, from time to time, order work suspension and/or
3 make changes in the general scope of this Agreement, including, but not limited to, the services furnished
4 to AUTHORITY by CONTRACTOR as described in the Scope of Work. If any such work suspension or
5 change causes an increase or decrease in the price of this Agreement, or in the time required for its
6 performance, CONTRACTOR shall promptly notify AUTHORITY thereof and assert its claim for
7 adjustment within ten (10) calendar days after the change or work suspension is ordered, and an
8 equitable adjustment shall be negotiated. However, nothing in this clause shall excuse CONTRACTOR
9 from proceeding immediately with the Agreement as changed.

10 **ARTICLE 12. DISPUTES**

11 A. Except as otherwise provided in this Agreement, when a dispute arises between
12 CONTRACTOR and AUTHORITY, the project managers shall meet to resolve the issue. If project
13 managers do not reach a resolution, the dispute will be decided by AUTHORITY's Director of Contracts
14 Administration and Materials Management (CAMM), who shall reduce the decision to writing and mail or
15 otherwise furnish a copy thereof to CONTRACTOR. The decision of the Director, CAMM, shall be the
16 final and conclusive administrative decision.

17 B. Pending final decision of a dispute hereunder, CONTRACTOR shall proceed diligently with
18 the performance of this Agreement and in accordance with the decision of AUTHORITY's Director,
19 CAMM. Nothing in this Agreement, however, shall be construed as making final the decision of any
20 AUTHORITY official or representative on a question of law, which questions shall be settled in
21 accordance with the laws of the State of California.

22 **ARTICLE 13. TERMINATION**

23 A. AUTHORITY may terminate this Agreement for its convenience at any time, in whole or part,
24 by giving CONTRACTOR written notice thereof. Upon said notice, AUTHORITY shall pay
25 CONTRACTOR its allowable costs incurred to date of termination and those allowable costs determined
26 by AUTHORITY to be reasonably necessary to effect such termination. Thereafter, CONTRACTOR shall

1 have no further claims against AUTHORITY under this Agreement.

2 B. In the event either Party defaults in the performance of any of their obligations under this
3 Agreement or breaches any of the provisions of this Agreement, the non-defaulting Party shall have the
4 option to terminate this Agreement upon thirty (30) days' prior written notice to the other Party. Upon
5 receipt of such notice, CONTRACTOR shall immediately cease work, unless the notice from
6 AUTHORITY provides otherwise. Upon receipt of the notice from AUTHORITY, CONTRACTOR shall
7 submit an invoice for work and/or services performed prior to the date of termination. AUTHORITY shall
8 pay CONTRACTOR for work and/or services satisfactorily provided to the date of termination in
9 compliance with this Agreement. Thereafter, CONTRACTOR shall have no further claims against
10 AUTHORITY under this Agreement. AUTHORITY shall not be liable for any claim of lost profits or
11 damages for such termination.

12 **ARTICLE 14. INDEMNIFICATION**

13 CONTRACTOR shall indemnify, defend, and hold harmless AUTHORITY, its officers, directors,
14 employees and agents from and against any and all claims (including attorneys' fees and reasonable
15 expenses for litigation or settlement) for any loss, costs, penalties, fines, damages, bodily injuries,
16 including death, damage to or loss of use of property, arising out of, resulting from, or in connection with
17 the performance of CONTRACTOR, its officers, directors, employees, agents, subcontractors or
18 suppliers under the Agreement. Notwithstanding the foregoing, such obligation to defend, hold harmless,
19 and indemnify AUTHORITY, its officers, directors, employees and agents shall not apply to such claims
20 or liabilities arising from the sole or active negligence or willful misconduct of AUTHORITY.

21 **ARTICLE 15. ASSIGNMENTS AND SUBCONTRACTS**

22 A. Neither this Agreement nor any interest herein nor claim hereunder may be assigned by
23 CONTRACTOR either voluntarily or by operation of law, nor may all or any part of this Agreement be
24 subcontracted by CONTRACTOR, without the prior written consent of AUTHORITY. Consent by
25 AUTHORITY shall not be deemed to relieve CONTRACTOR of its obligations to comply fully with all
26 terms and conditions of this Agreement.

1 B. AUTHORITY hereby consents to CONTRACTOR's subcontracting portions of the Scope of
2 Work to the parties identified below for the functions described in CONTRACTOR's proposal.
3 CONTRACTOR shall include in the subcontract agreement the stipulation that CONTRACTOR, not
4 AUTHORITY, is solely responsible for payment to the subcontractor for the amounts owing and that the
5 subcontractor shall have no claim, and shall take no action, against AUTHORITY, its officers, directors,
6 employees or sureties for nonpayment by CONTRACTOR.

7 **Subcontractor Name/Addresses**

Subcontractor Function

8
9
10 **ARTICLE 16. AUDIT AND INSPECTION OF RECORDS**

11 CONTRACTOR shall provide AUTHORITY, or other agents of AUTHORITY, such access to
12 CONTRACTOR's accounting books, records, payroll documents and facilities, as AUTHORITY deems
13 necessary. CONTRACTOR shall maintain such books, records, data and documents in accordance
14 with generally accepted accounting principles and shall clearly identify and make such items readily
15 accessible to such parties during CONTRACTOR's performance hereunder and for a period of four
16 (4) years from the date of final payment by AUTHORITY. AUTHORITY's right to audit books and
17 records directly related to this Agreement shall also extend to all first-tier subcontractors identified in
18 Article 15 of this Agreement. CONTRACTOR shall permit any of the foregoing parties to reproduce
19 documents by any means whatsoever or to copy excerpts and transcriptions as reasonably necessary.

20 **ARTICLE 17. CONFLICT OF INTEREST**

21 CONTRACTOR agrees to avoid organizational conflicts of interest. An organizational conflict
22 of interest means that due to other activities, relationships or contracts, the CONTRACTOR is unable,
23 or potentially unable to render impartial assistance or advice to the AUTHORITY; CONTRACTOR's
24 objectivity in performing the work identified in the Scope of Work is or might be otherwise impaired; or
25 the CONTRACTOR has an unfair competitive advantage. CONTRACTOR is obligated to fully disclose
26 to the AUTHORITY in writing Conflict of Interest issues as soon as they are known to the

1 CONTRACTOR. All disclosures must be submitted in writing to AUTHORITY pursuant to the Notice
2 provision herein. This disclosure requirement is for the entire term of this Agreement.

3 **ARTICLE 18. CODE OF CONDUCT**

4 CONTRACTOR agrees to comply with the AUTHORITY's Code of Conduct as it relates to
5 Third-Party contracts which is hereby referenced and by this reference is incorporated herein.
6 CONTRACTOR agrees to include these requirements in all of its subcontracts.

7 **ARTICLE 19. PROHIBITION ON PROVIDING ADVOCACY SERVICES**

8 CONTRACTOR and all subcontractors performing work under this Agreement, shall be
9 prohibited from concurrently representing or lobbying for any other party competing for a contract with
10 AUTHORITY, either as a prime CONTRACTOR or subcontractor. Failure to refrain from such
11 representation may result in termination of this Agreement.

12 **ARTICLE 20. FEDERAL, STATE AND LOCAL LAWS**

13 CONTRACTOR warrants that in the performance of this Agreement, it shall comply with all
14 applicable federal, state and local laws, statutes and ordinances and all lawful orders, rules and
15 regulations promulgated thereunder.

16 **ARTICLE 21. EQUAL EMPLOYMENT OPPORTUNITY**

17 In connection with its performance under this Agreement, CONTRACTOR shall not discriminate
18 against any employee or applicant for employment because of race, religion, color, sex, age or national
19 origin. CONTRACTOR shall take affirmative action to ensure that applicants are employed, and that
20 employees are treated during their employment, without regard to their race, religion, color, sex, age or
21 national origin. Such actions shall include, but not be limited to, the following: employment, upgrading,
22 demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other
23 forms of compensation; and selection for training, including apprenticeship.

24 **ARTICLE 22. PROHIBITED INTERESTS**

25 CONTRACTOR covenants that, for the term of this Agreement, no director, member, officer or
26 employee of AUTHORITY during his/her tenure in office or for one (1) year thereafter shall have any

1 interest, direct or indirect, in this Agreement or the proceeds thereof.

2 **ARTICLE 23. OWNERSHIP OF REPORTS AND DOCUMENTS**

3 A. The originals of all letters, documents, reports and other products and data produced under
4 this Agreement shall be delivered to, and become the property of AUTHORITY. Copies may be made
5 for CONTRACTOR's records but shall not be furnished to others without written authorization from
6 AUTHORITY. Such deliverables shall be deemed works made for hire and all rights in copyright therein
7 shall be retained by AUTHORITY.

8 B. All ideas, memoranda, specifications, plans, manufacturing, procedures, drawings,
9 descriptions, and all other written information submitted to CONTRACTOR in connection with the
10 performance of this Agreement shall not, without prior written approval of AUTHORITY, be used for any
11 purposes other than the performance under this Agreement, nor be disclosed to an entity not connected
12 with the performance of the project. CONTRACTOR shall comply with AUTHORITY's policies regarding
13 such material. Nothing furnished to CONTRACTOR, which is otherwise known to CONTRACTOR or is
14 or becomes generally known to the related industry shall be deemed confidential. CONTRACTOR shall
15 not use AUTHORITY's name, photographs of the project, or any other publicity pertaining to the project
16 in any professional publication, magazine, trade paper, newspaper, seminar or other medium without the
17 express written consent of AUTHORITY.

18 C. No copies, sketches, computer graphics or graphs, including graphic artwork, are to be
19 released by CONTRACTOR to any other person or agency except after prior written approval by
20 AUTHORITY, except as necessary for the performance of services under this Agreement. All press
21 releases, including graphic display information to be published in newspapers, magazines, etc., are to be
22 handled only by AUTHORITY unless otherwise agreed to by CONTRACTOR and AUTHORITY.

23 **ARTICLE 24. PATENT AND COPYRIGHT INFRINGEMENT**

24 A. In lieu of any other warranty by AUTHORITY or CONTRACTOR against patent or copyright
25 infringement, statutory or otherwise, it is agreed that CONTRACTOR shall defend at its expense any
26 claim or suit against AUTHORITY on account of any allegation that any item furnished under this

1 Agreement or the normal use or sale thereof arising out of the performance of this Agreement, infringes
2 upon any presently existing U.S. letters patent or copyright and CONTRACTOR shall pay all costs and
3 damages finally awarded in any such suit or claim, provided that CONTRACTOR is promptly notified in
4 writing of the suit or claim and given authority, information and assistance at CONTRACTOR's expense
5 for the defense of same. However, CONTRACTOR will not indemnify AUTHORITY if the suit or claim
6 results from: (1) AUTHORITY's alteration of a deliverable, such that said deliverable in its altered form
7 infringes upon any presently existing U.S. letters patent or copyright; or (2) the use of a deliverable in
8 combination with other material not provided by CONTRACTOR when such use in combination infringes
9 upon an existing U.S. letters patent or copyright.

10 B. CONTRACTOR shall have sole control of the defense of any such claim or suit and all
11 negotiations for settlement thereof. CONTRACTOR shall not be obligated to indemnify AUTHORITY
12 under any settlement made without CONTRACTOR's consent or in the event AUTHORITY fails to
13 cooperate fully in the defense of any suit or claim, provided, however, that said defense shall be at
14 CONTRACTOR's expense. If the use or sale of said item is enjoined as a result of such suit or claim,
15 CONTRACTOR, at no expense to AUTHORITY, shall obtain for AUTHORITY the right to use and sell
16 said item, or shall substitute an equivalent item acceptable to AUTHORITY and extend this patent and
17 copyright indemnity thereto.

18 **ARTICLE 25. FINISHED AND PRELIMINARY DATA**

19 A. All of CONTRACTOR's finished technical data, including but not limited to illustrations,
20 photographs, tapes, software, software design documents, including without limitation source code,
21 binary code, all media, technical documentation and user documentation, photoprints and other graphic
22 information required to be furnished under this Agreement, shall be AUTHORITY's property upon
23 payment and shall be furnished with unlimited rights and, as such, shall be free from proprietary restriction
24 except as elsewhere authorized in this Agreement. CONTRACTOR further agrees that it shall have no
25 interest or claim to such finished, AUTHORITY-owned, technical data; furthermore, said data is subject
26 to the provisions of the Freedom of Information Act, 5 USC 552.

1 B. It is expressly understood that any title to preliminary technical data is not passed to
2 AUTHORITY but is retained by CONTRACTOR. Preliminary data includes roughs, visualizations,
3 software design documents, layouts and comprehensives prepared by CONTRACTOR solely for the
4 purpose of demonstrating an idea or message for AUTHORITY's acceptance before approval is given
5 for preparation of finished artwork. Preliminary data title and right thereto shall be made available to
6 AUTHORITY if CONTRACTOR causes AUTHORITY to exercise Article 11, and a price shall be
7 negotiated for all preliminary data.

8 **ARTICLE 26. SETOFF**

9 If at any time, in the sole discretion of the AUTHORITY, it is reasonably believed that the
10 CONTRACTOR is liable to the AUTHORITY for any costs, penalties and/or sums, the AUTHORITY shall
11 be entitled to recover those costs, penalties and/or sums from any amounts that may be presently due
12 and payable to the CONTRACTOR or may become due and payable to the CONTRACTOR, including,
13 but not limited to payment for invoices submitted to the AUTHORITY for services provided under this
14 Agreement.

15 **ARTICLE 27. FORCE MAJEURE**

16 Either party shall be excused from performing its obligations under this Agreement during the time
17 and to the extent that it is prevented from performing by an unforeseeable cause beyond its control,
18 including but not limited to: any incidence of fire, flood; acts of God; commandeering of material, products,
19 plants or facilities by the federal, state or local government; national fuel shortage; or a material act or
20 omission by the other party; when satisfactory evidence of such cause is presented to the other party,
21 and provided further that such nonperformance is unforeseeable, beyond the control and is not due to
22 the fault or negligence of the party not performing.

23 **ARTICLE 28. HEALTH AND SAFETY REQUIREMENT**

24 CONTRACTOR shall comply with all the requirements set forth in Exhibit __, Level 2 Safety
25 Specifications.

EXHIBIT D: STATUS OF PAST AND PRESENT CONTRACTS FORM

STATUS OF PAST AND PRESENT CONTRACTS FORM

On the form provided below, Offeror/Bidder shall list the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract.

A separate form must be completed for each contract. Offeror/Bidder shall provide an accurate contact name and telephone number for each contract and indicate the term of the contract and the original contract value. Offeror/Bidder shall also provide a brief summary and the current status of the litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations. If the contract was terminated, list the reason for termination.

Offeror/Bidder shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of the bid. Each form must be signed by an officer of the Offeror/Bidder confirming that the information provided is true and accurate.

Project city/agency/other:	
Contact Name:	Phone:
Project Award Date:	Original Contract Value:
Term of Contract:	
(1) Litigation, claims, settlements, arbitrations, or investigations associated with contract:	
(2) Summary and Status of contract:	
(3) Summary and Status of action identified in (1):	
(4) Reason for termination, if applicable:	

By signing this Form entitled "Status of Past and Present Contracts," I am affirming that all of the information provided is true and accurate.

EXHIBIT E: CAMPAIGN CONTRIBUTION DISCLOSURE FORM

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Information Sheet

ORANGE COUNTY TRANSPORTATION AUTHORITY

The attached Campaign Contribution Disclosure Form must be completed by applicants for, or persons who are the subject of, any proceeding involving a license, permit, or other entitlement for use pending before the Board of Directors of the OCTA or any of its affiliated agencies. (Please see next page for definitions of these terms.)

IMPORTANT NOTICE

Basic Provisions of Government Code Section 84308

- A. If you are an applicant for, or the subject of, any proceeding involving a license, permit, or other entitlement for use, you are prohibited from making a campaign contribution of more than \$250 to any board member or his or her alternate. This prohibition begins on the date your application is filed or the proceeding is otherwise initiated, and the prohibition ends three months after a final decision is rendered by the Board of Directors. In addition, no board member or alternate may solicit or accept a campaign contribution of more than \$250 from you during this period.
- B. These prohibitions also apply to your agents, and, if you are a closely held corporation, to your majority shareholder as well. These prohibitions also apply to your subcontractor(s), joint venturer(s), and partner(s) in this proceeding. Also included are parent companies and subsidiary companies directed and controlled by you, and political action committees directed and controlled by you.
- C. You must file the attached disclosure form and disclose whether you or your agent(s) have in the aggregate contributed more than \$250 to any board member or his or her alternate during the 12-month period preceding the filing of the application or the initiation of the proceeding.
- D. If you or your agent have in the aggregate contributed more than \$250 to any individual board member or his/or her alternate during the 12 months preceding the decision on the application or proceeding, that board member or alternate must disqualify himself or herself from the decision. However, disqualification is not required if the board member or alternate returns the campaign contribution within 30 days from the time the director knows, or should have known, about both the contribution and the fact that you are a party in the proceeding. The Campaign Contribution Disclosure Form should be completed and filed with your proposal, or with the first written document you file or submit after the proceeding commences.

1. A proceeding involving "a license, permit, or other entitlement for use" includes all business, professional, trade and land use licenses and permits, and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor or personal employment contracts), and all franchises.
2. Your "agent" is someone who represents you in connection with a proceeding involving a license, permit or other entitlement for use. If an individual acting as an agent is also acting in his or her capacity as an employee or member of a law, architectural, engineering, consulting firm, or similar business entity, both the business entity and the individual are "agents."
3. To determine whether a campaign contribution of more than \$250 has been made by you, campaign contributions made by you within the preceding 12 months must be aggregated with those made by your agent within the preceding 12 months or the period of the agency, whichever is shorter. Contributions made by your majority shareholder (if a closely held corporation), your subcontractor(s), your joint venturer(s), and your partner(s) in this proceeding must also be included as part of the aggregation. Campaign contributions made to different directors or their alternates are not aggregated.
4. A list of the members and alternates of the Board of Directors is attached.

This notice summarizes the major requirements of Government Code Section 84308 of the Political Reform Act and California Code of Regulations, Title 2 Sections 18438-18438.8.

EXHIBIT F: SAFETY SPECIFICATIONS

LEVEL 2 STANDARD HEALTH, SAFETY AND ENVIRONMENTAL SPECIFICATIONS

PART I – GENERAL

1.1 GENERAL HEALTH, SAFETY & ENVIRONMENTAL REQUIREMENTS

- A. The Contractor, its subcontractors, suppliers, and employees have the obligation to comply with all Authority health, safety and environmental compliance department (HSEC), requirements of this safety specification, project site requirements, and bus yard safety rules as well as all federal, state, and local regulations pertaining to scope of work or agreements with the Authority. Additionally, manufacturer requirements are considered incorporated by reference as applicable to this scope of work.
- B. Observance of repeated unsafe acts or conditions, serious violation of safety standards, non-conformance of Authority health, safety and environmental compliance department (HSEC) requirements, or disregard for the intent of these safety specifications to protect people and property, by Contractor or its subcontractors may be reason for termination of scope or agreements with the Authority, at the sole discretion of the Authority.

C. INJURY AND ILLNESS PREVENTION PROGRAM

The Contractor shall comply with CCR Title 8, Section with California Code of Regulations (CCR) Title 8, Section 3203. The intent and elements of the IIPP shall be implemented and enforced by the Contractor and its sub-tier contractors, suppliers, and vendors. The program shall be provided to the Authority's Project Manager, upon request, within 72 hours.

D. SUBSTANCE ABUSE PREVENTION PROGRAM

Contractor shall comply with the Policy or Program of the Company's Substance Abuse Prevention Policy that complies with the most recent Drug Free Workplace Act. The program shall be provided to the Authority's Project Manager, upon request, within 72 hours.

E. HAZARD COMMUNICATION PROGRAM

- 1. Contractor shall comply with CCR Title 8, Section 5194 Hazard Communication Standard. Prior to use on Authority property and/or project work areas Contractor shall provide the Authority Project Manager copies of SDS for all applicable products used, if any. The program shall be provided to the Authority's Project Manager, upon request, within 72 hours.
- 2. All chemicals including paint, solvents, detergents and similar substances shall comply with South Coast Air Quality Management District (SCAQMD) rules 103, 1113, and 1171.

F. STORM WATER POLLUTION PREVENTION PLAN

1. The Contractor shall protect property and water resources from fuels and similar products throughout the duration of the contract. Contractor shall comply with Storm Water Pollution Prevention Plan (SWPPP) requirements. The program or plan if required by scope shall be provided to the Authority's Project Manager, upon request, within 72 hours.

G. DESIGNATED HEALTH, SAFETY, ENVIRONMENTAL (HSE) REPRESENTATIVE

1. Upon contract award, the contractor within 10 business days shall designate a health and safety representative and provide a resume and qualifications to the Authority project manager, upon request, within 72 hours.
2. This person shall be a Competent or Qualified Individual as defined by the Occupational, Safety, and Health Administration (OSHA), familiar with applicable CCR Title 8 Standards, and has the authority to affect changes in work procedures that may have associated cost, schedule and budget impacts.
3. The Contractor's HSE Representative is subject to acceptance by the Authority Project Manager, and the HSEC Department. All contact information of the HSE Representative (name, phone, and fax and pager/cell phone number) shall be provided to the Authority Project Manager, upon request, within 72 hours.
4. The Contractor's HSE Representative shall hold a current certification from the Board of Certified Safety Professionals (BCSP) and have five years of demonstrated construction/scope experience enforcing HSE compliance on construction, industrial or similar project scopes. The designated HSE Representative shall participate in any required HSE related submittals. The Authority reserves the right to allow for an exception and to modify these minimum qualification requirements for unforeseen circumstances, at the sole discretion of the Authority Project Manager and HSEC Department Manager.
5. Competent Individual means an individual who is capable of identifying existing and predictable hazards in the surroundings or working conditions which are unsanitary, hazardous, or dangerous to employees and/or property, and who has authorization to take prompt corrective measures to eliminate them.
6. Qualified Individual means an individual who by possession of a recognized degree, certificate, certification or professional standing, or who by extensive knowledge, training, and experience, has successfully demonstrated his/her ability to solve or resolve problems relating to the subject matter, the work, or the Project.

H. SCOPE PLANNING

Prior to any scope work activity or task, the Contractor shall evaluate the hazards of the scope of work and the work environment to ensure proper control measures are identified for employee public and property protection measures to prevent incidents. This evaluation shall be implemented by developing a written site specific Job Hazard Analysis (JHA) or similar tool designed for planning the work to prevent incidents. The plan shall be provided to the Authority's Project Manager, upon request, within 72 hours.

I. ORIENTATION

1. The Contractor shall conduct and document a project site safety orientation for all Contractor personnel, subcontractors, suppliers, vendors, and new employees assigned to the project prior to performing any work on Authority projects. The safety orientation at a minimum shall include, as applicable, Personal Protection Equipment (PPE) requirements, eye protection, ANSI class 2 or 3 reflective vests, designated smoking, eating, and parking areas, traffic speed limit and routing, cell phone policy, and barricade requirements. When required by scope, additional orientation shall include fall protection, energy isolation/lock-out/tag-out (LOTO), confined space, hot work permit, security requirements, and similar project safety requirements.
2. Copies of orientation documents shall be provided to the Authority Project Manager within 72 hours upon request.

J. TRAFFIC & PARKING

The Contractor shall ensure that all Contractor vehicles, including those of their subcontractors, suppliers, vendors and employees are parked in designated parking areas, personal vehicles shall be parked in the employee parking lot, work vehicles required in the maintenance area of a bus base shall be identified by company name and/or logo, covered by the company insurance, and comply with traffic routes, and posted traffic signs in areas other than the employee parking lots. Vehicles without appropriate company name and logo are considered personal vehicles and not allowed in the maintenance area of the bus base.

K. GENERAL PROVISIONS

1. The Contractor shall provide all necessary tools, equipment, and related safety protective devices to execute the scope of work in compliance with Authority's HSEC requirements, CCR Title 8 Standards, and recognized safe work practices.
2. The Contractor shall immediately notify the Authority's Project Manager whenever local, state or federal regulatory agency personnel are identified as being onsite.

3. The Authority HSEC requirements, and references contained within this scope of work shall not be considered all-inclusive as to the hazards that might be encountered. Safe work practices shall be pre-planned and performed, and safe conditions shall be maintained during the course of this work scope.
4. The Contractor shall specifically acknowledge that it has primary responsibility to prevent and correct all health, safety and environmental hazards for which it and its employees, or its subcontractors (and their employees) are responsible. The Contractor shall further acknowledge their expertise in recognition and prevention of hazards in the operations for which they are responsible, that the Authority may not have such expertise, and is relying upon the Contractor for such expertise. The Authority retains the right to notify the Contractor of potential hazards and request the Contractor to evaluate and, as necessary, to eliminate those hazards.
5. The Contractor shall instruct all its employees, and all associated sub-contractors under contract with the Contractor who work on Authority property in the recognition, identification, and avoidance of unsafe acts and/or conditions applicable to its work.
6. California Code of Regulations (CCR) Title 8 Standards are minimum requirements, and each Contractor is encouraged to exceed minimum requirements. When the Contractor safety requirements exceed statutory standards, the more stringent requirements shall be achieved for the safeguard of the public and workers.

1.2 ENVIRONMENTAL REQUIREMENTS

- A. The Contractor shall comply with Federal, State, county, municipal, and other local laws and regulations pertaining to the environment, including noise, aesthetics, air quality, water quality, contaminated soils, hazardous waste, storm water, and resources of archaeological significance. Expense of compliance with these laws and regulations is considered included in the agreement. Contractor shall provide water used for dust control, or for pre-wetting areas to be paved, as required; no payment will be made by OCTA for this water.
- B. The Contractor shall prevent pollution of storm drains, rivers, streams, irrigation ditches, and reservoirs with sediment or other harmful materials. Fuels, oils, bitumen, calcium chloride, cement, or other contaminants that would contribute to water pollution shall not be dumped into or placed where they will leach into storm drains, rivers, streams, irrigation ditches, or reservoirs. If operating equipment in streambeds or in and around open waters, protect the quality of ground water, wetlands, and surface waters.
- C. The Contractor shall protect adjacent properties and water resources from erosion and sediment damage throughout the duration of the contract. Contractor shall comply with applicable NPDES permits and Storm Water Pollution Prevention Plan (SWPPP) requirements.

- D. Contractor shall comply with all applicable EPA, Cal EPA, Cal Recycle, DTSC, SCAQMD, local, state, county and city standards, rules and regulations for hazardous and special waste handling, recycling and/ disposal. At a minimum, Contractor shall ensure compliance where applicable with SCAQMD Rule 1166, CCR Title 8, Section 5192, 29 CFR Subpart 1910.120, 49 CFR Part 172, Subpart H, 40 CFR Subpart 265.16 and CCR Title 22 Section 6625.16. Contractor shall provide OCTA a schedule of all hazardous waste and special or industrial waste disposal dates in advance of transport date. Only authorized OCTA personnel shall sign manifests for OCTA generated wastes. Contractor shall ensure that only current registered transporters are used for disposal of hazardous waste and industrial wastes. The Contractor shall obtain approval from OCTA for the disposal site locations in advance of scheduled transport date.

1.3 INCIDENT NOTIFICATION AND INVESTIGATION

- A. The Authority shall be promptly notified of any of the following types of incidents including but not limited to:
1. Damage incidents of property (incidents involving third party, contractor or Authority property damage);
 2. Reportable and/or Recordable injuries (as defined by the U. S. Occupational Safety and Health Administration), a minor injury, and near miss incidents;
 3. Incidents impacting the environment, i.e. spills or releases on Authority property.
- B. Notifications shall be made to Authority representatives, employees and/or agents. This includes incidents occurring to contractors, vendors, visitors, or members of the public that arise from the performance of Authority contract work. An immediate verbal notice followed by a written incident investigation report shall be submitted to Authority's Project Manager within 24 hours of the incident.
- C. A final written incident investigative report shall be submitted within seven (7) calendar days and include the following information. The Current Status of anyone injured, photos of the incident area, detailed description of what happened, Investigative photos of the existing conditions and area around the injury/incident scene, the contributing factors that lead to the incident occurrence, a copy of the company policy or procedure associated with the incident and evaluation of effectiveness, copy of task planning documentation, copy of the Physician's first report of injury, copy of Cal/OSHA 300 log of work related injuries and illnesses, the Cal/OSHA 301 Injury Illness Incident Report, and corrective actions initiated to prevent recurrence. This information shall be considered the minimum elements required for a comprehensive incident report provided to OCTA.

D. A Serious Injury, Serious Incident, OSHA Recordable Injury/Illness, or a Significant Near Miss shall require a formal incident review at the discretion of the Authority's Project Manager. The incident review shall be conducted within seven (7) calendar days of the incident. This review shall require a company senior executive, company program or project manager from the Contractors' organization to participate and present the incident review as determined by the OCTA Project Manager. The serious incident presentation shall include action taken for the welfare of the injured, a status report of the injured, causation factors that lead to the incident, a root cause analysis (using 5 whys and fishbone methods), and a detailed recovery plan that identifies corrective actions to prevent a similar incident, and actions to enhance safety awareness.

1. Serious Injury: includes an injury or illness to one or more employees, occurring in a place of employment or in connection with any employment, which requires inpatient hospitalization for a period in excess of twenty-four hours for other than medical observation, or in which an employee suffers the loss of any member of the body, or suffers any serious degree of physical disfigurement. A serious injury also includes a lost workday or reassignment or restricted injury case as determined by the Physician's first report of injury or Cal/OSHA definitions.
2. Serious Incident: includes but not limited to property damage of \$500.00 or more, an incident requiring emergency services (local fire, paramedics and ambulance response), news media or OCTA media relations response, and/or incidents involving other agencies (Cal/OSHA, EPA, AQMD, DTSC, Metrolink, FTA, FRA etc.) notification or representation.
3. OSHA Recordable Injury / Illness: includes and injury / illness resulting in medical treatment beyond First Aid, an injury / illness which requires restricted duty, or an injury / illness resulting in days away from work.
4. Significant Near Miss Incident: includes incidents where no property was damaged and no personal injury sustained, but where, given a slight shift in time or position, damage and/or injury easily could have occurred.

1.4 PERSONAL PROTECTIVE EQUIPMENT

Contractors, and all associated subcontractors, vendors and suppliers are required to provide their own personal protective equipment (PPE), including eye, head, foot, and hand protection, respirators, reflective safety vests, and all other PPE required to perform their work safely on Authority projects.

1.5 LANGUAGE REQUIREMENTS

The Contractor for safety reasons shall ensure employees that do not read, or understand English, shall have a bilingual supervisor or foreman when on the Authority property or projects.

1.6 WARNING SIGNS AND DEVICES

The Contractor shall provide signs, signals, and/or warning devices to be visible when and where a hazard exists. Signs, signals, and/or warning devices shall be removed when the hazard no longer exists.

END OF SECTION

EXHIBIT G: PROPOSAL EXCEPTIONS AND/OR DEVIATIONS

PROPOSAL EXCEPTIONS AND/OR DEVIATIONS

The following form shall be completed for each technical and/or contractual exception or deviation that is submitted by Offeror for review and consideration by Authority. The exception and/or deviation must be clearly stated along with the rationale for requesting the exception and/or deviation. If no technical or contractual exceptions or deviations are submitted as part of the original proposal, Offerors are deemed to have accepted Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit A) and Proposed Agreement (Exhibit C). Offerors will not be allowed to submit this form or any contractual exceptions and/or deviation after the proposal submittal date identified in the RFP. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

PUBLIC RECORDS ACT INDEMNIFICATION – PROPOSAL DOCUMENTS

Offeror is required to submit one copy of the completed and signed form as part of its proposal and it should be included only in the original proposal. Offeror shall complete either Option 1 or Option 2 which ever applies.

Option #1: Public Records Act Indemnification Agreement

By signing below, the Proposer agrees as follows regarding its Proposal:

If Authority receives a Public Records Act request (Government Code sections 6250 et seq.) which seeks any portion of Proposer’s proposal that the Proposer has marked as "confidential", "trade secret", "proprietary", "not subject to disclosure", or similar designation (the "PRA Documents"), the Authority will notify the Proposer of the request. The Proposer shall, within three business days of such notification from the Authority, inform the Authority as to whether it desires the PRA Documents to be withheld, and shall thereafter timely provide a legal basis for each such requested withholding. If the Authority determines to withhold the PRA Documents, Proposer shall indemnify and defend Authority from any and all costs or liabilities resulting from such withholding including, but not limited to, attorney fees and court costs.

Proposer shall pay all costs, immediately as they come due, pertaining to any action under the Public Records Act related to any portion of Proposer’s proposal marked or designated as described above, and withheld by Authority. If the Proposer fails to notify the Authority in writing within three business days, or to timely provide a legal basis for the withholding of documents, Proposer agrees that Authority shall release and disclose Proposer records, notwithstanding any marking or designation of the PRA Documents.

In no case shall Authority be liable for any inadvertent disclosure of any Proposer proposal documents, or any disclosure made by Authority upon a good faith belief that disclosure is required by law, or in the event Proposer has failed to notify the Authority in writing of its desire to withhold the PRA Documents within three business days and/or to timely provide a legal basis for the withholding of documents, regardless of any marking or designation of such PRA Documents, and Proposer waives any claims it may have had related to such disclosure.
