capability; work load; record of meeting schedules on similar projects; and supportive client references.

Offeror to:

- (1) Provide a brief profile of the firm, including the types of services offered; the year founded; form of the organization (corporation, partnership, sole proprietorship); number, size and location of offices; and number of employees.
- (2) Provide a general description of the firm's financial condition and identify any conditions (e.g., bankruptcy, pending litigation, planned office closures, impending merger) that may impede Offeror's ability to complete the project.
- (3) Describe the firm's experience in performing work of a similar nature to that solicited in this RFP, and highlight the participation in such work by the key personnel proposed for assignment to this project. Firms' proposal should include examples of similar work efforts and qualifications related to cyclic counts.
- (4) Identify subcontractors by company name, address, contact person, telephone number, email, and project function. Describe Offeror's experience working with each subcontractor.
- (5) Identify all firms hired or retained to provide lobbying or advocating services on behalf of the Offeror by company name, address, contact person, telephone number and email address. This information is required to be provided by the Offeror immediately during the evaluation process, if a lobbyist or advocate is hired or retained.
- (6) Provide as a minimum three (3) references for the projects cited as related experience, and furnish the name, title, address, telephone number, and email address of the person(s) at the client organization who is most knowledgeable about the work performed. Offeror may also supply references from other work not cited in this section as related experience.

b. Proposed Staffing and Project Organization

This section of the proposal should establish the method, which will be used by the Offeror to manage the project as well as identify key personnel assigned.

Offeror to:

- (1) Identify key personnel proposed to perform the work and include major areas of subcontract work. Include the person's name, current location, proposed position for this project, current assignment, level of commitment to that assignment, availability for this assignment and how long each person has been with the firm.

c. Work Plan

Offeror should provide a narrative, which addresses the Scope of Work, and shows Offeror's understanding of Authority's needs and requirements.

Offeror to:

- (1) Describe the approach to completing the work specified in the Scope of Work. The approach to the work plan shall be of such detail to demonstrate the Offeror's ability to accomplish the project objectives and overall schedule.
- (2) Outline sequentially the activities that would be undertaken in completing the work and specify who would perform them.
- (3) Identify methods that Offeror will use to ensure quality control as well as budget and schedule control for the project.

- (4) Identify any special issues or problems that are likely to be encountered in this project and how the Offeror would propose to address them.

d. Exceptions/Deviations

State any technical and/or contractual exceptions and/or deviations from the requirements of this RFP, including the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit A) and Proposed Agreement (Exhibit C), using the form entitled "Proposal Exceptions and/or Deviations" included in this RFP. This Proposal Exceptions and/or Deviations form must be included in the original proposal submitted by the Offeror. If no technical or contractual exceptions and/or deviations are submitted as part of the original proposal, Offerors are deemed to have accepted the Authority's technical requirements and contractual terms and conditions set forth in the Scope of Work (Exhibit A) and Proposed Agreement (Exhibit C). Offerors will not be allowed to submit the Proposal Exceptions and/or Deviations form or any technical and/or contractual exceptions after the proposal submittal date identified in the RFP. Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

All exceptions and/or deviations will be reviewed by the Authority and will be assigned a "pass" or "fail" status. Exceptions and deviations that "pass" do not mean that the Authority has accepted the change but that it is a potential negotiable issue. Exceptions and deviations that receive a "fail" status means that the requested change is not something that the Authority would consider a potential negotiable issue. Offerors that receive a "fail" status on their exceptions and/or deviations will be notified by the Authority and will be allowed to retract the exception and/or deviation and continue in the evaluation process. Any exceptions and/or deviation that receive a "fail" status and the Offeror cannot or does not retract the requested change may result in the firm being eliminated from further evaluation.

4. Cost and Price Proposal

As part of the cost and price proposal, the Offeror shall submit proposed pricing to provide the services for each work task described in Exhibit A, Scope of Work.

The Offeror shall complete the "Price Summary Sheet" form included with this RFP (Exhibit B), and furnish any narrative required to explain the prices quoted in the schedules. It is anticipated that the Authority will issue a time and expense-price contract specifying fully burdened labor rates and anticipated expenses to complete the Scope of Work.

5. Appendices

Information considered by Offeror to be pertinent to this project and which has not been specifically solicited in any of the aforementioned sections may be placed in a separate appendix section. Offerors are cautioned, however, that this does not constitute an invitation to submit large amounts of extraneous materials. Appendices should be relevant and brief.

B. FORMS

1. Status of Past and Present Contracts Form

Offeror shall complete and sign the form entitled "Status of Past and Present Contracts" provided in this RFP and submit as part of its proposal. Offeror shall identify the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract. Offeror shall have an ongoing obligation to update the Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's proposal.

A separate form must be completed for each identified contract. Each form must be signed by the Offeror confirming that the information provided is true and accurate. Offeror is required to submit one copy of the completed form(s) as part of its proposal.

2. Proposal Exceptions and/or Deviations Form

Offerors shall complete the form entitled "Proposal Exceptions and/or Deviations" provided in this RFP and submit it as part of the proposal. For each exception and/or deviation, a new form should be used, identifying the exception and/or deviation and the rationale for requesting the change. - 2. Staffing and Project Organization 20%**

- 4. Cost and Price 30%**

Reasonableness of hourly rates and expenses; competitiveness with other offers received; adequacy of data in support of figures quoted.

B. EVALUATION PROCEDURE

An evaluation committee will be appointed to review all proposals received for this RFP. The committee is comprised of Authority staff and may include outside personnel. The committee members will evaluate the written proposals using criteria identified in Section III A. A list of top-ranked proposals, firms within a competitive range, will be developed based upon the totals of each committee members' score for each proposal.

During the evaluation period, the Authority may interview some or all of the proposing firms. The Authority has established March 22, 2022, as the date to conduct interviews. All prospective Offerors are asked to keep this date available. No other interview dates will be provided, therefore, if an Offeror is unable to attend the interview on this date, its proposal may be eliminated from further discussion.

The interview may consist of a short presentation by the Offeror after which the evaluation committee will ask questions related to the firm's proposal and qualifications.

At the conclusion of the proposal evaluations, the evaluation committee will score the proposals to develop a competitive range. Offerors remaining within the competitive range may be asked to submit a Best and Final Offer (BAFO). In the BAFO request, the firms may be asked to provide additional information, confirm or clarify issues and submit a final cost/price offer. A deadline for submission will be stipulated.

At the conclusion of the evaluation process, the evaluation committee will recommend to Authority's management the Offeror whose proposal is most advantageous to the Authority.

C. AWARD

The Authority may also negotiate contract terms with the selected Offeror prior to award, and expressly reserves the right to negotiate with several Offerors simultaneously and, thereafter, to award a contract to the Offeror offering the most favorable terms to the Authority.

The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a proposal in response to this RFP shall be notified via CAMM NET of the contract award. Such notification shall be made within three (3) business days of the date the contract is awarded.

Offerors who were not awarded the contract may obtain a debriefing concerning the strengths and weaknesses of their proposal. Unsuccessful Offerors, who wish to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) business days of notification of the contract award.

EXHIBIT A: SCOPE OF WORK

**SCOPE OF WORK
ORANGE COUNTY CYCLIC COUNTS 2022-2023**

PROJECT BACKGROUND

With the increasing prevalence of active transportation as a mode choice and its relevance to many local, state, and federal goals, the Orange County Transportation Authority (OCTA) is expanding its database of active transportation counts. OCTA completed The Orange County Active Transportation Counts Program (ATCP) Study in 2019. This study outlined a framework for future data collection of active transportation activity throughout Orange County. As the first stage of implementation for the recommended data collection program, OCTA began a process for collecting “cyclic counts” in May of 2020 and 2021. This 2022-2023 project will continue the process established by the 2020-2021 effort and build on it with an increased project scale. The data gathered as part of this project will be added to OCTA’s existing Bicycle Count Database (BCD). This database will provide a tool to help prioritize improvements, inform policies, pursue funding, and evaluate progress.

PROJECT DESCRIPTION

This project will collect bi-directional (screen-line) bicycle volume counts at a minimum of two hundred (200) locations each year throughout Orange County, including roadway segments and off-street paths. Counts shall be taken for two (2) days (one [1] weekday and one [1] Saturday). Counts will be done in a manner that allows for details on bicycle count specifications and requirements such as contraflow riding, sidewalk riding, electric/non-electric bicycle, and other characteristics as available. This count data will be used for temporal analysis, spatial analysis, and informing future study efforts. These “cyclic counts” will provide OCTA with better geographic coverage across Orange County by strengthening data accuracy in geographies with existing data and gaining insight where there is no current information. In doing so, OCTA and the local Orange County agencies will have access to the latest volume data that address and improve upon the goals previously noted – improving the project decision process, informing policies, and evaluating progress.

PROJECT ORGANIZATION AND SCHEDULE

Consultant shall work under the general direction of the OCTA project manager and in cooperation with local jurisdictions.

The schedule requires timely completion of the counts each year for maintaining consistency with OCTA’s BCD. Counts shall be conducted between May 2 and May 24 of 2022, and again between May 1 and May 23 of 2023. If re-counts are needed, they are to be collected by the third week of June. Counts shall not be collected during the week or weekend of Memorial Day, or within five (5) calendar days of the holiday’s date. Completion of the project, including submittal of all final count data in electronic medium to OCTA, shall be no later than June 30, 2023.

WORK PROGRAM

The project work program consists of the specifications outlined below.

Consultant shall provide OCTA with regular coordination, a project schedule, and monthly invoicing with progress reports.

- A. Project Kick-Off Meeting - Consultant shall schedule a meeting with OCTA to kick-off the project; establish communication channels and protocols; discuss the scope of work, schedule, and budget; and obtain a thorough understanding of the goals for the project.

Consultant shall provide OCTA with a data collection strategy that identifies and abides by the following specifications:

- A. Locations – Counts shall be collected at a minimum of two hundred (200) locations each calendar year, as defined by the OCTA project manager and provided to Consultant. During project kickoff, Consultant and OCTA project manager shall come to agreement upon the total number of locations that can be counted each year. A quantity of locations in excess of two hundred (200) is desired. Locations will include a mixture of roadway segments and off-street paths, including Class I, II, III, and IV bikeway facilities. Count locations shall be geographically spread across the County, with or without uniformity.
- B. Timing – Data collection shall occur on either a Tuesday, Wednesday, or Thursday, and one (1) Saturday for each location. Counts shall also be collected for a continuous 15-hour period, from 6:00am until 9:00pm. Counts shall not be collected during a week or weekend preceding, during, or following a holiday.
- C. Schedule – Counts shall be conducted between May 2 and 24, 2022, and again between May 1 and May 23 of 2021. Counts shall not be collected during the week or weekend of Memorial Day, or within five (5) calendar days of the holiday's date. Consultant shall provide OCTA with a schedule (time and date) for all locations, listed by jurisdiction, at least ten (10) calendar days prior to data collection. OCTA shall be notified of any changes to the schedule at least twenty-four (24) hours prior to the change. Completion of the project, including submittal of all final count data in electronic medium to OCTA, shall be no later than June 30, 2023.

- D. Impediments – If Consultant is unable to collect data at any location due to terrain, obstructions, or any other physical constraints, OCTA shall be notified at least four (4) calendar days prior to scheduled data collection.
- E. Priorities – Data collection shall prioritize geographic coverage and/or quantity of locations counted, with a secondary priority of obtaining enhanced data characteristics and variables.

Consultant shall collect bi-directional bicycle volume counts at a minimum of two hundred (200) locations each year, while also accounting for the following:

- A. Data Characteristics – Count data shall be collected in 15-minute intervals, and at a minimum, shall identify bi-directionality of volumes. Where technology and environmental factors permit, contraflow riding, sidewalk riding, electric/non-electric bicycle, and other characteristics would be desired.
- B. Recounts – Recounts will be required when the count data does not appear reasonable. If re-counts are needed, counts shall be collected by no later than the third (3rd) week of June.
- C. Disruptions – Any disruptions of travel patterns including days of inclement weather (such as heavy rainfall), temporary construction activities, or any other incident that may disrupt normal traffic flows shall be brought to the attention of the OCTA project manager. Data collection on any such day or during any such period shall not occur without prior OCTA approval.

Consultant shall provide OCTA with draft and final summary of 2022 data collection effort.

- A. Data Formatting – Count sheets shall reflect fifteen (15)-minute intervals, with interval, hourly, and daily totals identified. Count sheets shall identify bidirectionality of volumes and other data characteristics when applicable. Consultant shall provide data using, or formatting as closely as possible to, the count sheet template provided (Attachment A). Count data shall be provided in Microsoft Excel, PDF, and Shapefile formats.
- B. Count Summary – Count summary shall aggregate all count data collected for 2022 into a single, sortable file. Consultant shall provide OCTA with a draft count summary of 2022 data collection by no later than July 29, 2022 and final count summary by no later than August 24, 2022.

Consultant shall provide OCTA with draft and final summary of 2023 data collection effort.

- A. Data Formatting – Count sheets shall reflect fifteen (15)-minute intervals, with interval, hourly, and daily totals identified. Count sheets shall identify bidirectionality of volumes and other data characteristics when applicable. Consultant shall provide data using, or formatting as closely as possible to, the count sheet template provided (Attachment A). Count data shall be provided in Microsoft Excel, PDF, and Shapefile formats.
- B. Count Summary – Count summary shall aggregate all count data collected for 2023 into a single, sortable file. Consultant shall provide OCTA with a draft count summary of 2023 data collection by no later than June 16, 2023 and final count summary by no later than June 30, 2023.
