The Authority will not be bound to any modifications to or deviations from the requirements set forth in this IFB as the result of oral instructions. 2. Preference for Materials

In accordance with the California Public Contract Code Section 3400, reference to any equipment, material, article or patented process, by trade name, make, or catalog number, shall not be construed as limiting competition. In those cases where the specifications call for a designated material, product, or service by specific brand or trade name and there is only one brand or trade name listed, the item involves a unique or novel product application required to be used in the public interest or is the only

brand or trade name known to the Authority.

- c. Any request for an approved equal must be fully supported with technical data, test results, or other pertinent information as evidence that the substitute offered is equal to or better than the specification requirements. The burden of proof as to the equality, substitutability, and compatibility of proposed alternates or equals shall be upon the bidder, who shall furnish all necessary information at no cost to the Authority. The Authority shall be the sole judge as to the equality, substitutability, and compatibility of proposed alternates or equals.

The bidder is responsible for notifying the Authority of any inappropriate brand name, component, and/or equipment substitute for consideration by the Authority.

Brand names and model number, when used, are for the purpose of identifying a standard of requirement and are not to be construed as restricting the procurement to those brand names and model numbers called out. Refer to above Paragraph.
