Conflict of Interest issues must be fully disclosed in the Offeror's proposal.

All Offerors must disclose in their proposal and immediately throughout the course of the evaluation process if they have hired or retained an advocate to lobby Authority staff or the Board of Directors on their behalf.

Offerors hired to perform services for the Authority are prohibited from concurrently acting as an advocate for another firm who is competing for a contract with the Authority, either as a prime or subcontractor.

L. CODE OF CONDUCT

All Offerors agree to comply with the Authority's Code of Conduct as it relates to Third-Party contracts which is hereby referenced and by this reference is incorporated herein. All Offerors agree to include these requirements in all of its subcontracts.

M. OWNERSHIP OF RECORDS/PUBLIC RECORDS ACT

All proposals and documents submitted in response to this RFP shall become the property of the Authority and a matter of public record pursuant to the California Public Records Act, Government Code sections 7920.000 et seq. (the "Act"). Offerors should familiarize themselves with the provisions of the Act requiring disclosure of public information. Offerors are discouraged from marking their proposal documents as "confidential" or "proprietary."

If a Proposal does include "confidential" or "proprietary" markings and the Authority receives a request pursuant to the Act, the Authority will endeavor (but cannot guarantee) to notify the Offeror of such a request. In order to protect any information submitted within a Proposal, the Offeror must pursue, at its sole cost and expense, any and all appropriate legal action necessary to maintain the confidentiality of such information. The committee members will evaluate the written proposals using criteria identified in Section III A. A list of top-ranked proposals, firms within a competitive range, will be developed based upon the totals of each committee members' score for each proposal.

During the evaluation period, the Authority may interview some or all of the proposing firms. The Authority has established May 23, 2024, as the date to conduct interviews. The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a proposal in response to this RFP shall be notified via CAMM NET of the contract award. Such notification shall be made within three (3) business days of the date the contract is awarded.

Offerors who were not awarded the contract may obtain a debriefing concerning the strengths and weaknesses of their proposal. Unsuccessful Offerors, who wish to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) business days of notification of the contract award.

EXHIBIT A: SCOPE OF WORK

SCOPE OF WORK
Orange County Transportation Authority Rider Safety Perception Survey

BACKGROUND

The Orange County Transportation Authority's (OCTA) projects, programs, and services affect every aspect of transportation within Orange County. OCTA is a multi-modal agency involved in decisions that affect the daily quality of life for more than three million people who live in Orange County and countless others who travel here.

As the Orange County's primary transportation agency, OCTA is responsible for providing public transportation via countywide bus and future streetcar services, funding grants for community circulators, and active transportation projects, coordinating rideshare services, funding the three Metrolink lines in the county, operating the 91 and 405 Express Lanes, working with Caltrans to improve freeways, partnering with local jurisdictions to improve streets and roads, administering the OC GO (also known as Measure M) Transportation Investment Plan, and developing and implementing short- and long-term transportation plans.

On October 7, 2023, California Governor Gavin Newsom approved California Senate Bill (SB) 434 (Chapter 396, Statutes of 2023) that required specific transit operators within the State of California to gather transit rider survey information related to safety using public transit (noted in the bill as "street harassment") and to make the gathered survey information publicly available on the agency's website by December 31, 2024.

In order to meet this legislative requirement, as well as seeking to continue assessing and improving the transit rider experience, OCTA desires to implement a qualitative survey of transit riders in order to gather information on the perception of safety of riders using OCTA transit services, including onboard OCTA transit vehicles and at bus stops and transit centers.

In the past, OCTA has conducted both qualitative and quantitative studies to gain knowledge of the transportation needs of Orange County residents; however, they did not focus specifically on transit rider's perception of safety while using public transit. By assessing the transit rider experience through the lens of safety, and ensuring feedback from ethnic, diverse and communities historically less responsive to survey efforts, OCTA will be better equipped with an inclusive view of transit riders' expectations and experiences. As part of the Rider Safety Perception Survey (RSPS), OCTA is seeking both statistically reliable information as well as rider feedback that may lead to improvements in a variety of areas, including establishing priorities and developing services, programs, and projects.

Results of the RSPS will be utilized by the OCTA to measure and assist with service and safety efforts. Specifically, the RSPS will set to accomplish the following goals:

- Measure perception of safety among transit users, gauge thoughts on the following areas impacting current and future usage.
 - a. Safety concerns
 - b. Opportunities to improve bus service/amenities
- Identify any actual or perceived safety barriers that may exist to transit; for any identified safety issues, gather sufficient information in order to determine (as

applicable) affected rider audiences or subpopulations, relevant details, contributing factors such as route, location, or time of day.

- The survey design, data collection, and public dissemination methods will be directly aligned with the requirements specified in SB 434, including but not limited to the collection of transit rider survey information related to safety and street harassment.
- Using transit rider survey responses, focus group and stakeholder meeting findings, develop for consideration a possible list of enhancements or improvements to address any identified safety concerns or perceptions.
- All survey responses and data handling will be treated with the utmost confidentiality to protect participants' identities and personal information.
- Gather pertinent transit usage, demographic and geographic information from transit riders.

OBJECTIVES

OCTA is planning to conduct a Rider Safety Perception Survey (RSPS) for transit riders and seeks to engage professional services to conduct the RSPS for:

1. Development of a best practice model research plan
2. Development of survey instruments and facilitation guides
3. Administration of surveys (in-person, onboard, and online; including distribution and collection of surveys)
4. Facilitation at focus groups and stakeholder group meetings
5. Data collection and analysis
6. Development of a final report, executive summary, and presentation

The anticipated launch date for this project is approximately June 15, 2024.

The RSPS should identify the perception of safety for transit riders of OCTA services, including ethnic, diverse communities and subpopulations of riders who may be underrepresented in surveys and those impacted by street harassment to gain insight into the perspectives and experiences of riders.

Survey efforts, focus group and stakeholder meeting outreach will attempt to gather information including but not limited to the following:

1. Whether a rider experiences street harassment.
2. The frequency with which a rider experiences street harassment.
3. The type of street harassment experienced by a rider.
4. The actual or perceived characteristics that serve as the basis for street harassment experienced by a rider.
5. Where and when a rider experiences street harassment, including on what mode of transit.
6. Whether a rider experiencing street harassment is alone or accompanied by others.
7. Whether a rider experiencing street harassment reports the incident, and, if so, to whom and the response received.
8. The impact of street harassment on a rider, including whether and how they change their use of transit.

9. A rider's perceptions of safety while using transit.

By conducting a thorough analysis of data and information, the RSPS shall also address the following:

- Identify safety issues and improvements / opportunities for transit riders, including perception of safety by transit rider groups, including but not limited to ethnic, gender, LGBTQ+ and other demographic populations
- Identify and establish opportunities for ongoing meaningful engagement, especially for underserved and difficult to reach populations
- Identify and partner with agencies and/or community-based organizations to leverage outreach and research efforts

SCOPE OF SERVICES

OCTA is seeking a CONSULTANT with a demonstrated track record of creating, organizing and conducting qualitative and quantitative research related to transportation and regional and local public policy issues.

The CONSULTANT shall complete the below tasks on a time-and-expense price basis.

Phase 1: Overall Strategy and Work Plan

Proposals must include a best practice model project plan addressing research methodology, sampling, development of survey instruments and facilitation guides, facilitation of focus group and stakeholder meetings, data collection and analysis, development of draft report, executive summary and final report and presentations to OCTA's public committees and Board of Directors.

The outreach strategy will include specific tactics to connect with and gather input from diverse communities and vulnerable populations, including communities of color, LGBTQ+ individuals, persons with disabilities, unhoused individuals, undocumented individuals, and other underserved groups.

Deliverables:

The Consultant shall use expertise to develop and manage the Project Plan, which includes a proposed timeline, tasks, consultant resources and responsibilities, budget and assumptions and activities to meet the following objectives:

- Develop project timeline with specific milestones for survey development, data collection, analysis, and public reporting to ensure timely and effective completion of all project components
- Assess transit riders' perception of safety using public transit, including onboard transit vehicles and at bus stops or transit centers; consider transit riders' personal and observed experiences of unwanted or harassing behavior
- Identify actual and perceived safety issues among current transit riders
- Gather detailed demographic and geographic information from transit riders

Phase 2: Develop Survey Instruments, Survey Plan, and Facilitation Guides

- a) The RSPS survey is planned as an onboard rider survey (including distribution and collection of the print survey instrument onboard OC Bus vehicles in service).
