Offerors are discouraged from marking their proposal documents as "confidential" or "proprietary."

If a Proposal does include "confidential" or "proprietary" markings and the Authority receives a request pursuant to the Act, the Authority will endeavor (but cannot guarantee) to notify the Offeror of such a request. In order to protect any information submitted within a Proposal, the Offeror must pursue, at its sole cost and expense, any and all appropriate legal action necessary to maintain the confidentiality of such information. The Authority generally does not consider pricing information, subcontractor lists, or key personnel, including resumes, as being exempt from disclosure under the Act. In no event shall the Authority or any of its officers, directors, employees, agents, representatives, or consultants be liable to Offeror for the disclosure of any materials or information submitted in response to the RFP or by failing to notify Offeror of a request seeking its Proposal. B. FORMS

1. Status of Past and Present Contracts Form

Offeror shall complete and sign the form entitled “Status of Past and Present Contracts” provided in this RFP and submit as part of its proposal. B. EVALUATION PROCEDURE

An evaluation committee will be appointed to review all proposals received for this RFP. The committee is comprised of Authority staff and may include outside personnel. The committee members will evaluate the written proposals using criteria identified in Section III A. A list of top-ranked proposals, firms within a competitive range, will be developed based upon the totals of each committee members' score for each proposal.

During the evaluation period, the Authority may interview some or all of the proposing firms. The Authority has established September 4, 2024, as the date to conduct interviews. All prospective Offerors are asked to keep this date available. No other interview dates will be provided, therefore, if an Offeror is unable to attend

the interview on this date, its proposal may be eliminated from further discussion. The interview may consist of a short presentation by the Offeror after which the evaluation committee will ask questions related to the firm's proposal and qualifications.

At the conclusion of the proposal evaluations, the evaluation committee will score the proposals to develop a competitive range. Offerors remaining within the competitive range may be asked to submit a Best and Final Offer (BAFO). In the BAFO request, the firms may be asked to provide additional information, confirm or clarify issues and submit a final cost/price offer. A deadline for submission will be stipulated.

C. AWARD

The Authority may negotiate contract terms with the selected Offeror prior to award, and expressly reserves the right to negotiate with several Offerors simultaneously and, thereafter, to award a contract to the Offeror offering the most favorable terms to the Authority.

The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a proposal in response to this RFP shall be notified via CAMM NET of the contract award. Such notification shall be made within three (3) business days of the date the contract is awarded.

Offerors who were not awarded the contract may obtain a debriefing concerning the strengths and weaknesses of their proposal. Unsuccessful Offerors, who wish to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) business days of notification of the contract award.

SCOPE OF WORK

Payment Card Industry Data Security Standard (PCI DSS) Consulting Services

BACKGROUND

The Orange County Transportation Authority (OCTA) is a state-mandated transportation agency that brings together all the public entities charged with planning and operating transportation in Orange County, California. OCTA sets transportation priorities, makes countywide spending decisions based on these priorities, plans and funds major highway and freeway projects and street improvements, operates Orange County's public transit systems and provides paratransit services. As one (1) agency, OCTA provides Orange County with a single point of accountability and a greater voice for local residents for all transportation issues.

OCTA's Information Systems (IS) department is responsible for all computer-related operations at OCTA including applications development, IS planning, user services, cyber security, and technical services.

OCTA's distributed computing future is best built on a modern, integrated network architecture that incorporates best-of-breed, file, print, application, messaging, and Internet/Intranet services.

Within OCTA, the IS department plays a pivotal role in managing all aspects of computer-related operations. The IS department is geared toward ensuring robust and secure information processing across its networks to support the needs of over one thousand (1,000) users distributed across five (5) locations in Orange County. It efficiently manages and maintains more than ninety (90) business applications, eleven (11) of which are classified as mission critical, demonstrating a strong commitment to security and operational excellence.

As part of the IS Strategic Plan, the IS department is always looking at the most efficient ways to provide services to its business units. This foundation of advanced technological infrastructure and skilled management is integral to maintaining high standards of data security, especially in relation to Payment Card Industry Data Security Standard (PCI DSS) compliance, to protect sensitive payment card information processed within OCTA's systems.

OBJECTIVES

The main objective of this engagement is to undertake a comprehensive assessment of OCTA's PCI DSS compliance status, aiming to:

1. Thoroughly validate and critique past Self-Assessment Questionnaires (SAQ) to ensure they meet all current PCI DSS requirements.
2. Conduct a detailed evaluation of the current network and security infrastructure to identify compliance shortcomings and security vulnerabilities.
3. Provide expert guidance and assistance in preparing and submitting future SAQs, ensuring adherence to PCI DSS standards and regulatory expectations.

4. Policy Review and Enhancement: Examination and improvement of existing security policies and protocols to ensure they meet PCI DSS standards.

The consulting services shall comprehensively address the following areas:

Task 1: Initiation

Consultant shall produce and submit an Initial Report on Compliance (IROC), featuring a gap analysis that highlights areas of noncompliance with the standards. The IROC shall include high-level remediation suggestions or compensating controls necessary for compliance. This gap analysis shall prioritize non-compliant elements based on the urgency of correction needed and shall provide recommended corrective actions. Where applicable, screenshots, log excerpts, and other relevant technical evidence shall be included.

Technical Infrastructure Assessment: Evaluation of the technical setups, such as servers and network devices, to ensure they securely process and store payment card data.

Physical Security Checks: Assessment of physical security measures at all facilities involved in payment card processing.

Third-Party Compliance Assessment: Evaluation of all third-party service providers to ensure their compliance with PCI DSS affects OCTA's operations.

Vulnerability Identification: Systematic identification of security weaknesses and recommendation of corresponding remediation strategies.

Deliverables:

Facilitate a kick-off meeting to achieve the following goals:

1. Define roles and responsibilities between OCTA and Consultant project team members.
2. Define a comprehensive list of constraints that need to be considered in the baseline project schedule.
3. Establish task and deliverable priorities.
4. Baseline project schedule to measure team progress and critical milestones.
5. Establish expectations for deliverable content and level of detail.

This phase takes a partnership approach to the overall project, where Consultant and OCTA resources work together to develop a comprehensive project overview. Consultant shall facilitate sessions with OCTA technical resources to discover all aspects of the project from requirements gathering through pilot and deployment.

The Project Initiation step shall achieve the following goals:

1. Consultant and OCTA shall mutually agree upon the scope of each project phase.
2. Roles and responsibilities shall be negotiated and agreed upon.
3. A comprehensive listing of associated tasks shall be compiled for each phase.

4. Prioritization of tasks and determination as to whether the task is essential for project success or could be deferred if deadlines slip.
5. Detailed project plans shall be created for each phase of the overall project.
6. Consultant and OCTA resources shall be assigned to previously identified tasks.
7. Milestones and deadlines shall be established, especially as they relate to critical OCTA business constraints.
8. Expectations shall be set as to deliverables' content and level of detail.

Task 2: Corrective Measures

Consultant shall assist OCTA with implementing corrective measures and/or adding compensating controls to ensure compliance with the current PCI standards. Consultant shall recommend or provide resources to actively assist with these corrective efforts as needed.

Policy Creation and Enhancement: Development and refinement of PCI DSS 4.0 compliant policies. This involves crafting new security policies and enhancing existing protocols to rigorously align with the latest PCI DSS standards. The process includes a detailed review of current security measures to identify any areas that require updates or complete reformation to ensure comprehensive protection of payment card data.

Deliverables:

1. Assist OCTA's project team in engaging and managing PCI DSS-related services, including security audits and compliance assessments provided by certified vendors.
2. Apply industry best practices to establish and enforce security policies and controls required for the organization's PCI DSS compliance. Develop and implement risk management strategies and data security measures.
3. Conduct rigorous testing to validate the effectiveness of the implemented security measures. Ensure all systems and processes adhere to PCI DSS standards and function correctly within the regulated framework.
4. Create comprehensive documentation for the newly implemented PCI DSS compliant environment. This includes developing user manuals, standard operating procedures, and security policies tailored to organizational needs.
5. Configure and fine-tune security systems to enhance data integrity and security. Implement necessary changes to IT infrastructure to support PCI DSS compliance.
6. Perform detailed testing of the systems to ensure they handle cardholder data securely. Validate the configuration and operational effectiveness of security systems and controls.
7. Validate the effectiveness of backup systems and data recovery processes. Conduct tests to ensure the capability to restore data securely and quickly in the event of data loss or system failure.

8. Document all changes, tests, and configurations made during the project. Provide detailed manuals and operational guidelines to ensure ongoing compliance and operational integrity.

Task 3: Project Training and Closure

Upon completion of the corrective efforts, Consultant shall issue a final Report of Compliance (ROC) and provide an electronic copy of the report. Consultant shall assist OCTA in identifying functional staffing roles that require training to maintain compliance with the current standards. 3 make changes in the general scope of this Agreement, including, but not limited to, the services furnished
4 to AUTHORITY by CONSULTANT as described in the Scope of Work. If any such work suspension or
5 change causes an increase or decrease in the price of this Agreement, or in the time required for its
6 performance, CONSULTANT shall promptly notify AUTHORITY thereof and assert its claim for
7 adjustment within ten (10) calendar days after the change or work suspension is ordered, and an
8 equitable adjustment shall be negotiated. However, nothing in this clause shall excuse CONSULTANT
9 from proceeding immediately with the Agreement as changed.

10 **ARTICLE 12. DISPUTES**

11 A. Except as otherwise provided in this Agreement, when a dispute arises between
12 CONSULTANT and AUTHORITY, the project managers shall meet to resolve the issue. If project

22 **ARTICLE 13. TERMINATION**

23 A. AUTHORITY may terminate this Agreement for its convenience at any time, in whole or part,

25 and conditions of this Agreement.

26 B. AUTHORITY hereby consents to CONSULTANT's subcontracting portions of the Scope of

Work to the parties identified below for the functions described in CONSULTANT's proposal.
