Offerors are discouraged from marking their proposal documents as "confidential" or "proprietary."

If a Proposal does include "confidential" or "proprietary" markings and the Authority receives a request pursuant to the Act, the Authority will endeavor (but cannot guarantee) to notify the Offeror of such a request. In order to protect any information submitted within a Proposal, the Offeror must pursue, at its sole cost and expense, any and all appropriate legal action necessary to maintain the confidentiality of such information. The Authority generally does not consider pricing information, subcontractor lists, or key personnel, including resumes, as being exempt from disclosure under the Act. In no event shall the Authority or any of its officers, directors, employees, agents, representatives, or consultants be liable to Offeror for the disclosure of any materials or information submitted in response to the RFP or by failing to notify Offeror of a request seeking its Proposal. The Authority reserves the right to make an independent decision to disclose records and material.

Notwithstanding the above, all information regarding proposal responses will be held as confidential until such time as the evaluation has been completed; an award has been made by the Board of Directors or Authority Staff, as appropriate; and the contract has been fully negotiated.

Exceptions and/or deviations submitted after the proposal submittal date will not be reviewed by Authority.

All exceptions and/or deviations will be reviewed by the Authority and will be assigned a "pass" or "fail" status. Exceptions and deviations that "pass" do not mean that the Authority has accepted the change but that it is a potential negotiable issue. Offerors that receive a "fail" status on their exceptions and/or deviations will be notified by the Authority and will be allowed to retract the exception and/or deviation and continue in the evaluation process. Any exceptions and/or deviation that receive a "fail" status and the Offeror cannot or does not retract the requested change may result in the firm being eliminated from further evaluation.

4. Cost and Price Proposal

As part of the cost and price proposal, the Offeror shall submit proposed pricing to provide the services described in Exhibit A, Scope of Work.

The Offeror shall complete the "Price Summary Sheet" form included with this RFP (Exhibit B) and furnish any narrative required to explain the prices quoted in the schedules. It is anticipated that the Agreement resulting from this solicitation, if awarded, will be a time-and-expense contract with fully-burdened rates and anticipated expenses for work specified in the Scope of Work, included in the RFP as Exhibit A.

5. Appendices

Information considered by Offeror to be pertinent to this project and which has not been specifically solicited in any of the aforementioned sections may be placed in a separate appendix section. Offeror shall complete and sign the form entitled "Status of Past and Present Contracts" provided in this RFP and submit as part of its proposal. Offeror shall identify the status of past and present contracts where the firm has either provided services as a prime vendor or a subcontractor during the past five (5) years in which the contract has been the subject of or may be involved in litigation with the contracting authority. This includes, but is not limited to, claims, settlement agreements, arbitrations, administrative proceedings, and investigations arising out of the contract. Offeror shall have an ongoing obligation to update Authority with any changes to the identified contracts and any new litigation, claims, settlement agreements, arbitrations, administrative proceedings, or investigations that arise subsequent to the submission of Offeror's proposal.

A separate form must be completed for each identified contract. Each form must be signed by the Offeror confirming that the information provided is true and accurate.

The committee members will evaluate the written proposals using criteria identified in Section III A. A list of top-ranked proposals, firms within a competitive range, will be developed based upon the totals of each committee members' score for each proposal.

During the evaluation period, the Authority may interview some or all of the proposing firms. The Authority has established August 7, 2025, as the date to conduct interviews. All prospective Offerors are asked to keep this date available. The Authority may negotiate contract terms with the selected Offeror prior to award, and expressly reserves the right to negotiate with several Offerors simultaneously and, thereafter, to award a contract to the Offeror offering the most favorable terms to the Authority.

The Authority reserves the right to award its total requirements to one Offeror or to apportion those requirements among several Offerors as the Authority may deem to be in its best interest. In addition, negotiations may or may not be conducted with Offerors; therefore, the proposal submitted should contain Offeror's most favorable terms and conditions, since the selection and award may be made without discussion with any Offeror.

The selected Offeror will be required to submit to the Authority's Accounting department a current IRS W-9 form prior to commencing work.

D. NOTIFICATION OF AWARD AND DEBRIEFING

Offerors who submit a proposal in response to this RFP shall be notified via CAMM NET of the contract award. Such notification shall be made within three (3) business days of the date the contract is awarded.

Offerors who were not awarded the contract may obtain a debriefing concerning the strengths and weaknesses of their proposal. Unsuccessful Offerors, who wish to be debriefed, must request the debriefing in writing or electronic mail and the Authority must receive it within three (3) business days of notification of the contract award.

Each vehicle shall be scale-weighted at a certified scale for tare weight at a scale as close as possible to the pick-up point and re-weighted at the same scale for gross weight after loading. The differential shall be the billing weight for ton charge. (Contractor shall propose treatment and/ disposal options for clarifier waste stream for OCTA approval prior to performing work). Contractor shall propose clean out schedule/work plan quarterly to Project Manager for approval.

3.02 Non-Resource Conservation and Recovery Act (non-RCRA) Hazardous Waste Solids

As needed, the Contractor shall provide the required transportation and personnel to transport the OCTA's non-RCRA hazardous waste solids to an authorized disposal facility. Non-RCRA hazardous waste solids generated by OCTA have typically been oily debris (i.e., spent absorbent, paper filters) and used coolant filters.

At each OCTA Location, the hazardous waste is packaged in DOT-approved 55-gallon drums awaiting disposal. The Contractor shall provide DOT-approved 55-gallon drums as needed to replace picked-up drums. Contractor shall provide hazardous waste labels as needed as required by the DTSC.

Part 4 – Special Waste

Contractor shall provide the required transportation and personnel to transport special waste generated by OCTA as needed.

Special waste is hazardous waste not regularly generated by OCTA's activities. Examples include, but are not limited to, contaminated soil from road cleanups, lab packed various waste paints, inks, developers, and expired or out-of-date products. The Contractor shall provide the required analytical tests to determine recycling and/or disposal options for special waste on an as-needed basis.

Part 5 – Disposal Requirements

The Contractor shall visit each disposal site on a regular basis to assure proper handling of waste, safety, and compliance with all applicable federal, state and local regulatory requirements. Examples of past disposal facilities utilized by OCTA include the following: K-Pure Waterworks, Southwest Processors, US Ecology, YES Management, Environmental Waste Solutions, and Veolia. Waste profiles shall be prepared for all hazardous and non-hazardous waste by Contractor.

All hazardous and non-hazardous waste shall be disposed of in the following manner:

- Utilize authorized recycling facilities for acceptable materials where possible. Recycling or reclaiming is preferred to other means of disposal.
- Treatment and incineration are secondary choices for disposal.
- Only with prior approval from the OCTA's Project Manager shall any waste be considered for landfill.

Contractor must be aware of current costs and analytical requirements for disposal of hazardous waste at approved Environmental Protection Agency (EPA)-permitted disposal facilities and upon request, provide more than one disposal site cost estimate, which shall include all costs including transportation.

Upon award, Contractor shall provide a list to OCTA of proposed permitted disposal and/or recycling facilities with the facility name, complete address, contact, and contact number for OCTA's approval prior to commencing work. Facilities not on the proposed list shall only be used with prior approval from OCTA's Project Manager. OCTA will review the proposed list and approve on a case-by-case basis.

Part 6 – Uniform Hazardous Waste Manifests & Related Documents

Contractor shall be responsible for initiating all uniform hazardous waste manifests and documents related to the transportation of hazardous and non-hazardous waste (i.e., pick-up receipts, bills of lading, etc.). Contractor shall provide OCTA with pertinent documents as required by all local, state and federal regulations. Copies shall be provided to OCTA upon request. Contractor shall verify quantities, where disposal was completed and how disposal was completed to the satisfaction of OCTA and all local, state and federal regulations. A quarterly report summarizing quantities removed at each location shall be submitted to the Project Manager via email.

Part 7 – Emergency Response

Contractor shall provide Emergency Response Team and equipment upon request, in the event of an unauthorized release of hazardous waste and/or materials on or off OCTA property. Contractor must respond immediately upon request, twenty-four (24) hours a day, and three hundred sixty-five (365) days a year. Examples of previous emergency response have been biohazard trauma clean up, illegal dumping and off-site hazardous materials spill.

In the event of an unauthorized release, Contractor shall provide OCTA Project Manager with a copy of their Emergency Response Plan, including names and contact phone numbers, personnel training information and clean-up procedures to be followed.

Part 8- Stormwater Sampling Kits and Analysis

Contractor shall deliver stormwater sampling kits at each of the OCTA facilities to the Facility Maintenance personnel as requested. Typically, half of the kits will be delivered between July and August and the remaining half between December and January. Each stormwater sampling kit shall have the appropriate number and type of containers to conduct grab samples for the following constituents:

- Total Suspended Solids (TSS)
- Oil and Grease (O&G)

OCTA has no preferred storm water sampling kit. Storm water sampling kits should contain the 1-liter glass amber bottle with preservative for oil and grease sample and 32-ounce or 1-liter bottle for total suspended solids sample. The following is a listing of the number of kits to be delivered at each location:

Santa Ana Location	12
Garden Grove Location	20
Irvine Location I	8
Irvine Location II	8
Anaheim Location	12

After samples are collected by OCTA, Contractor shall pick up and deliver the samples for analysis to a California State Certified laboratory within forty-eight (48) hours of pick-up request. Sample analytical reports shall be sent to OCTA electronically within fifteen (15) business days. The Contractor shall pick up and dispose of unused stormwater sampling kits as required by all local, state and federal regulations at the OCTA's request at no charge.

Part 9 – Analytical Work

A California State Certified Laboratory shall be used by the Contractor for analytical testing and related work.

Contractor shall provide sampling and analytical profiles of the OCTA's hazardous waste streams from a certified laboratory on an as-needed basis. The testing done would typically be related to proper waste characterization (i.e., Title 22 metals, VOCs, etc.).

Part 10 – Verification of Work

An inspection shall be made by OCTA's employees (typically Facilities Maintenance) after each service is performed and a verification of work form must be completed by the Contractor. This form is attached as Attachment A.

Part 11 – Limitation on Governmental Decisions

Nothing contained in this scope of work permits Contractor's personnel to authorize or direct any actions, votes, appoint any person, obligate, or commit OCTA to any course of action or enter into any contractual agreement on behalf of OCTA. In addition, Contractor's personnel shall not provide information, an opinion, or a recommendation for the purpose of affecting a decision without significant intervening substantive review by OCTA personnel, counsel, and management.
